**SUNSHINY DAYS AND
CLEAR, COLD WEATHER
IN TRINITY VALLEY**

TRINITY VALLEY, B.C., Jan. 9.—
Sunshiny days and clear cold weather
have been the rule of late. The ther-
mometers went as low as 24 degrees
below zero on Tuesday night, and the
next night registered 14 below.
Miss Lenora Brett of Lumby, was a
recent visitor to Mr. and Mrs. S. L.
Remsburg.
Mrs. James Grant is at present a
patient of the Vernon Jubilee Hospital.
F. Barnes's tie camp beyond George
Bailey's ranch is working with several
men employed at the tie making. All
our local men are at work, either in
Trinity Valley camps, or elsewhere,
some at tie or pole making, some mak-
ing shakes.
Miss Vivienne Reed was a holiday
visitor at Mr. and Mrs. J. G. Villet's
home.

Relief and Library Are In Spotlight At Rather Dull Municipal Meeting

(Continued from Page One)
At another point in his remarks he
declared that some statements had
been made that Vernon did not pay
as much relief as Kamloops. Kam-
loops gives \$17.50 and this city \$12.50
plus 40 percent, or the same amount.
Kelowna, he had heard, operates un-
der a different system.
Alderman Hurt's statements were not
contested except on one point, and
that was by Gomez Kirk, who said that
the woman was a resident of this pro-
vince and not of Saskatchewan. No
one asked why she was not admitted
to hospital, nor were any other mat-
erial facts disclosed.

In reply to a question by F. W. Cur-
rery, Alderman Hurt said that those
receiving relief did not have any small
sums they might earn deducted from
their script.

Library Discussed
The vexed library question, that has
been long prominent in civic affairs,
was brought up by E. K. Peters, al-
derman candidate for the Council, who
asked Mayor Frowse how the library
was going to finance on the pres-
ent balance of \$104. About \$2,300 had
been levied and all but approximately
\$100 spent, he said.

"I think that that Miss Stewart, who
put the scheme over, was as sick a
woman as Mrs. Simpson," was
Mr. Peters' remark in summing up the
situation.
Mayor Frowse in his annual report
given earlier in the meeting, has de-
clared that the library prospects were
much brighter for 1937, and this, Mr.
Peters said, was at a loss to under-
stand.
The crux of the matter is, His Wor-
ship informed the meeting, that there
will be another levy during this year
for the library, and this should provide
ample funds. Also, the local branch
has been completely repaired and re-
modelled out of the 1936 budget and
some \$1,000, as authorized under the
scheme, has been paid to headquarters.

All necessary equipment has now
been purchased and it is up to
headquarters to provide suitable
books," Mayor Frowse said. In ad-
dition, each district has been re-
ceiving some book service, and with
all this accomplished things cer-
tainly look bright for this year.

"There is no doubt that Dr. Helen
Stewart was a very, very high pressure
saleslady and no man in the valley
argued more with her than I did re-
garding certain features of the scheme,"
he declared at one point.

It was Mayor Frowse's contention
that the groundwork has now been
successfully, if with difficulty, laid, and
patrons of the library may now look
forward to vastly improved service.

Civic Reports
A complete account of Mayor
Frowse's report on civic activities for
1936 will be found in another column.

Reports of the various City Council
departments for the past year, as given
by the aldermen, were brief and no
questions were asked at the conclusion
by any members of the Council.

Finances are now in sounder con-
dition than last year, Alderman Hurt
declared. It will in all probability be
necessary to levy one mill for sinking
fund this year to provide for water-
works debentures due in 1938.

He dealt briefly with reason for ad-
vancing \$600 to pay off the debt on the
Scout Hall. The city really owns the
property and building, so trustees are
unable to negotiate a loan. The origi-
nal contract price of the hall was
about \$8,000 and the debt had been in-
curred to pay for improvements.

Alderman Hurt frankly stated that
he had not been in favor of the city
erecting a sports arena, but since the
voters had overwhelmingly endorsed
this project he was behind it fully. The
decision to erect the building near the
Inland Ice was a wise one, in his opin-
ion.

In appealing for support at the polls,
he declared that he expects the work in-
volved and has the time to devote to
his duties. The post of finance com-
mittee is an onerous one, but Alder-
man Hurt declared that he is fully
capable of it.

Vigorous Speech
In a vigorous speech, Alderman
Wilde stated that he has now been on
the Council six years "and now really
knows something about the city's ad-
ministration." A delegate to the Ho-
pital Board from the Council, he has
aided and seen the finances of that
institution grow steadily stronger.

Certain money had had to be cut
from each department last year and
so some really necessary improvements
to the waterworks had been delayed.
The only new construction undertaken
was the laying of pipe between Bar-
nard Avenue and Lake Drive. He had
been instrumental in obtaining the
Council's agreement to adopting a
house numbering program.

The Mission Hill reservoir work has
been going ahead for the past three
years and this winter will probably
see it completed. This project is badly
needed to allow the Kalamanka Lake
pump to work efficiently. When fin-
ished the reservoir will have a capacity
of 2,500,000 gallons.

The Council had found it impossible
to reduce water rates last year, but
Alderman Wilde said he thought this
could be done in 1937.

If again elected, Alderman Wilde de-
clared he will ask the Mayor to appoint
a committee to see if the city can carry
its own fire insurance. There has not
been one serious fire in the past 20
years in city-owned buildings, he said,
and if the premiums paid out were put
into a fund it would provide adequate
coverage in the event of a fire.

Considerable of equipment has been
added to the board of works during
the past year, Alderman David How-
rie said, until today Vernon is as well
equipped as other valley centres.

"I was glad to see that that Vernon
has at last climbed out of the pit of
depression and taken the first
stride to prosperity by building a
sports arena," he said. Alderman
Howrie paid a tribute to the work
done on the arena project by Al-
derman Wilde.

Alderman A. E. Berry, reporting for
the electric light and fire committees,

stated that the new lighting system
on Barnard Avenue was "money well
spent." The siren in the Fire Hall in-
stalled this year, will be further im-
proved.

Candidates' Views
The candidate for the mayoralty, L.
L. Stewart, declared he had agreed to
run again "so as to put new industries
in Vernon and take people off relief."
"Ten years ago when I was a candi-
date for mayor, I told the people that
I would get them a box factory and a
cannery, and I did," he said.

The two industries that Mr. Stew-
art contemplates securing for this city
are a coal mine and a beet factory.
Answering a question by Paul DeLoon,
Mr. Stewart declared that he did not
intend using any of the city's money to
secure the coal mine.

"The sugar beet factory can be
brought here if we go out after it. No-
body every got anything done unless
they went after it," he stated.

T. E. Clarke declared that he had
agreed to run as alderman following
representations made to him by what
he believed to be a representative com-
mittee. "I am for safe, sane, progres-
sive administration of the city's busi-
ness."

A. A. Legg and Rube Swift, the two
candidates supported by the Vernon
Unemployed Association, both declared
they thought there was every chance of
obtaining a better deal for those on re-
lief.

Mr. Swift said this is the ninth time
he has been a candidate for the
Council. He was first elected in 1905
and served for five years, being chair-
man of every committee except that
of finance.

"On His Own"
That no one had asked him to stand
for the Council and that he was out
on his own entirely was E. K. Peters'
statement. "I came out of my own
free will and accord," he said.

"My idea in running for the Coun-
cil was that, up to the time I filed my
papers, there were no candidates in the
field that I honestly considered capable
of representing the taxpayers," de-
clared C. W. Gaunt-Stevenson. "However,
it happened that I was a half-hour
ahead of one man in filing."

"The unemployed have, I believe, a
real kick, but if elected I will consider
all aspects of the situation before mak-
ing any decision."

**PRESIDENT LOYD
RECEIVES HALF OF
HONORARIUM VOTED**

Fruit Growers Association Spends
\$7,277.34 And Has \$10
In The Bank

Kelowna, B.C., Jan. 12.—"We are
sailing too close to the wind,"
Such was the statement of S. K.
Fitzpatrick, Oliver, when discussing
the annual financial statement of the
B.C.F.G.A. was developed at the con-
vention here Tuesday morning.

After C. A. Hayden, secretary-treas-
urer, had presented the statement,
showing \$10 as the balance on hand,
Mr. Fitzpatrick, supported by other
speakers, suggested that such was too
slim a balance to maintain.

Attention was drawn to the fact that
the honorarium voted to President A.
K. Loyd, of \$100, and to Capt. H. A.
Porteous, chairman of last year's con-
vention, of \$50, had been only partly
paid. The President had stated that
due to the financial position the un-
paid balances were not considered as
owing by the Association.

"If these funds had been paid," said
Mr. Fitzpatrick, "and they should have
been paid in such a worthy cause, we
should have been in red ink. This
merely emphasizes our position. I say
that we are sailing altogether too close
to the wind. We are budgeting too close
to necessary and known expenses. Sup-
posing a very vital expense became
necessary, what if we had to send a
man to Ottawa right now—how could
we do it?"

Congratulates Directors
T. M. Croll, Summerland, congrat-
ulated the directors on having kept
expenses down as well as they did, and
Capt. D. M. Rattray, one of the direc-
tors, pointed out that there had been
an unexpected increase of over \$400
in the cost of last year's convention,
charged against this year's budget. F.
E. French, another director, laid em-
phasis upon the fact that \$550 had
been contributed to the B.C. Chamber
of Agriculture in the past year. Were
it not for these facts, it was stated,
the association would have as good a bal-
ance to show as last year.

C. J. Huddleston, Summerland, urged
that as soon as further funds are
available that the honorarium deficit
to the President be made up, and P.
V. LeClerc, Vernon, pointed out that
this sum is altogether inadequate to
recompense the chief executive officer
for the amount of work entailed.

That the allowances to the various
locals might be cut down was the sug-
gestion made by J. A. Trewitt, of
Oyama, but A. L. Baldoek, of Rutland,
took exception to this. "A true asso-
ciation is built on live locals," he ar-
gued. "We have decided to pay our
local secretary, and I think it's a good
move. Don't forget the locals."

Plan For Larger Budget
A. C. Atkinson, Penticton, termi-
nated the discussion with the suggestion
that a larger budget must be planned
for. "The emergencies that have arisen
in the past will arise again," he
observed, "and we must always be
prepared for them."

Discussion of the financial statement
revealed that the delegates had not
failed to find with the way the direc-
tors had administered the funds under
their control. Rather, there was com-
mendation for the fiscal policy of the
past year and the very evident feeling
that a somewhat larger budget should
be provided for.

Commend Secretary Hayden
Mr. Hayden outlined the methods
that had been adopted during the past
year to keep the growers informed of
all developments. In this regard he
paid a tribute to the Valley press and
later the convention adopted a resolu-
tion of thanks to the press. A fur-
ther resolution was endorsed, more-
over, commending Mr. Hayden for his
capable efforts.

"Publicity is essential," remarked

"How do you
like Sonny?"
"He's never had a stomach upset
in his life. We're so grateful to
St. Charles Milk."
ASK YOUR DOCTOR about St. Charles for
your baby. It's so easy to digest—and it's
irradiated by the finest method known to
science for an extra supply of Sunshine
Vitamin D.
Only fresh pure milk from selected farms is
accepted by Borden's for St. Charles. It's the
safest milk you can buy. Enjoy its extra
goodness by using in tea and coffee and for
cooking.

Evaporated Milk

SCHOOL CHILDREN AT OYAMA HAVE SKATING PARTIES

Mrs. J. Lowe Re-elected Presi-
dent Of Anglican Women's
Auxiliary

OYAMA, B.C., Jan. 11.—The skating
season started in earnest last week
when the sub-zero weather froze
Wood's Lake over. On Saturday even-
ing a skating party was held for the
school children, a large rink being
cleared of snow near the school.

Hot dogs and coffee were served
round a camp fire by the teachers and
a most enjoyable time was had by all.

The annual meeting of the Angli-
can Women's Auxiliary was held at
the home of Mr. and Mrs. Jas. Lowe
on Thursday afternoon. Mrs. Lowe
was again elected president for the
coming year; Mrs. A. S. Towgood, vice-
president; Mrs. A. A. Evans and Mrs.
S. Holtam, sewing committee. The
office of secretary-treasurer was left
open till the next meeting.

The Young People's Recreation Club
held their first social evening on Thurs-
day evening of last week in the Hall.
About forty young people were present
and a very enjoyable evening was
spent singing, playing games and danc-
ing.

The club hopes to hold similar even-
ings once a month during the winter.
A Dramatic and Physical Instruction
Class has also been organized, and a
meeting is to be held this week to dis-
cuss badminton play.

Mr. and Mrs. Tucker kindly put
their home at the disposal of the Wo-
men's Auxiliary for a card party on
Friday evening last.

In spite of the cold weather a fair
number of players turned out, and the
evening was spent playing bridge. Mrs.
Dobson was the winner of the ladies
prize and C. M. Deschamps the gen-
tlemen's prize. As well as the prizes
for bridge a special prize was given
to the person guessing the nearest
to the number of beans in a jar. This
was won by Vernon Ellison.

The Rev. A. V. Despard left last week
for Victoria, where he will spend a
few weeks.

Mrs. Hibbet is at present visiting
friends in Vernon.

WEDDING BELLS

Pritchard-Richards

Of interest to many in this city and
district is the wedding solemnized in
the chapel of All Saints' Church quiet-
ly on Saturday, January 10, of An-
gela Josephine, the second daughter of
Mr. and Mrs. Charles Richards, and of
Arthur Herbert Pritchard, the son of
C. Pritchard, of Grindrod, and the late
Mrs. Pritchard.

The bride was given in marriage by
her father and was attended by her
sister, Miss Ellen Richards, while
Douglas Archibald supported the
groom.

On returning from a trip to Coast
cities, Mr. and Mrs. Pritchard will
make their home in Vernon.

Capt. D. M. Rattray, Salmon Arm, in
connection with this phase of the so-
ciety's report. "The more the public
understands our problems, the faster
we shall progress."

The statement of receipts and dis-
bursements for 1936, as presented be-
fore the convention, showed the funds
in balance at \$7,287 with \$10.24 as the
cash in the bank. The sum of \$9,000
had been received from the Tree Fruit
Board and there was a carry-over of
\$687 from the previous year.

Major Disbursements
Disbursements were itemized as fol-
lows: contributions to locals, \$721.20;
allowances to and expense of delegates,
\$1,103.55; Secretary's salary, \$975;
Secretary's travelling expenses, \$445-
50; President's honorarium, \$75; hono-
rarium for convention chairman of
1936, \$35; per diem allowances for
President and Directors, \$500; expense
allowances, \$557.08; general expenses,
including stationery, printing, rental,
legal, etc., \$1,087; B.C. Chamber of Ag-
riculture, \$550; Country Life, \$1,130.
Total disbursements, \$7,277.34.

Hudson's Bay Company
INCORPORATED 27 MAY 1670

YES, THIS FOOD ENDS YOUR CONSTIPATION

Look out for those half-sick days, when you feel listless, headachy, out-of-sorts. Your trouble may be constipation. The real cause of common constipation is too little "bulk" in meals. Your system misses its regular exercise.

Get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Within the body, its "bulk" absorbs moisture, forms a soft mass, gently sponges out the system.

Why keep on feeling bad when you can feel good? Millions of people use ALL-BRAN. Tests prove it's safe and effective. ALL-BRAN is guaranteed. Try it a week. If not satisfied, your money will be refunded by the Kellogg Company.

Two tablespoons daily are usually sufficient. Serve as a cereal, with milk or cream, or cook into recipes. Remember, ALL-BRAN also supplies vitamin B and iron.

Certainly you'd rather eat a food that takes pills and drugs. Buy ALL-BRAN at your grocer's. Made by Kellogg in London.

Local Basketers Are Sadder And Wiser Bunch--Adanacs Proved Very Able Teachers

Vernon Senior B's Take Short End of 62-29 Score

Vernon Senior B hoopers entered a fine educational institution when they stepped out upon the Scout Hall floor on Friday night of last week.

Providing they can absorb all they saw and all that was shown them, they should be, and possibly are, a sadder and yet a wiser group of basketers.

The teachers, in this particular hall of learning, were only five 40-minute men clad in yellow and without any apparent diplomas or scholastic gowns, blackboards, or rulers. Despite this lack of the facilities, the New Westminster Adanacs had their own particular qualifications.

The score, really a matter of little interest, especially to the local team, was 62-29, for New Westminster, of course.

The Yellowshirts just couldn't miss the hoop and Vernon could. That's the whole story.

To be fair "our side" was not really playing the basketball of which they are capable. Except for flashes they were disorganized, badly disorganized, despite all the oil that Coach "Dolly" Gray tried to pour on the troubled waters.

Plenty of Subs. Substitutions didn't help, and Vernon used plenty of subs. Courage, dogged, but still courage, didn't help. And even Jack Wills, high scorer though he was, with ten points, didn't help much.

If one is a follower of this hoop sport one naturally looks in the opening minutes of the game to see how the guards are picking the rebounds off their own board. On Friday night it was useless to look, except at the Adanac end, and looking there was just slightly tiresome.

Travelling light, the visitors appeared on the floor with only five men in strip. And at the end of the 40 minutes of play, they had rolled up the sweet average of over 12 points each.

Starting out smoothly from the opening whistle, the tourists assaulted the local citadel with a rain of baskets and at about five minutes to the half were leading 21-4, when Ken Perrett and Walter Wills boosted the Vernon mark.

Kennington and Helem, Vancouver Province players, went to town in fine style. Forest, on defence, and Kidd and Neil, forwards, while not so flashy, were quietly effective, and the whole Adanac machine moved at a highly geared pace.

For Vernon, Ronnie Dean, the Wills brothers, and Ken Perrett, a new defenseman showed in to cover the hole made by Howard Gray's departure, showed up best, but they were definitely not as impressive as they can be.

In the preliminary, Vernon ladies walked roughshod over Salmon Arm ladies to the tune of 26-12. Esther Murphy and Annie Openshaw were chief scoring threats and Muriel Downing took the palm for the hardest working player on the floor.

The Teams:
Adanacs: Kennington, 16; Helem, 16; Neil, 13; Forest, 3; Kidd, 14.—Total, 62.
Vernon Seniors: J. Wills, 10; Cochran, 2; W. Wills, 4; Redman, Dean, 8; McGill, Rutten, Carter, 1; Perrett, 4.—Total, 29.

Salmon Arm ladies: Ready, 4; Crozier, 2; Sabouni, 4; Robinson, Sladen, 2; Harner.—Total, 12.
Vernon ladies: Murphy, 14; Openshaw, 8; McDonald, 4; Van Damme, Downing, 2; Danielson.—Total, 28.

Referees: Larry Marrs and Homer Cochran; scorer, Gordon Baillie; timekeeper, R. F. Raikes.

KELOWNA, B.C., Jan. 12.—In a whirlwind finish New Westminster Adanacs nosed out Kelowna at 45-43 after leading the home team by about four points from the beginning.

Early in the first period Dave Neil collided with the gallery near the home basket and suffered a badly cracked ankle. His place was taken by Jim Tostensen of Kelowna, the visitors travelling without spares. At this period the score stood at 9 to 4 in favor of the Adanacs and at half time the margin had not widened, standing at 25 to 21.

Better combination and better shooting on the part of the visitors enabled them to hold their lead. In the last few minutes in a fine effort the home team scored two baskets to drop a six point margin to two, and the final ended with the Kelownans again threatening. Scores:—

Adanacs—Kennington, 14; Helem, 13; J. Tostensen, 3; Neil, Kidd, 10; Forest, 5.—45.
Kelowna—Horton, 10; McKay, 8; C. Tostensen, 2; Johnson, 5; James Ryan, 5; H. Pettman, 13.—43.

A PLEASANT SURPRISE ON NEW YEAR'S EVE

KEDLESTON, B.C., Jan. 9.—Mr. and Mrs. Hitchcock had a pleasant surprise on New Year's Eve, a car coming up from town with Mr. and Mrs. Bartholomew and Mr. and Mrs. Kenneth Peters. A very pleasant evening was spent, including the watching of the close of the old year and the arrival of the New Year.

School opened after the Christmas holidays with Miss Rice as the new teacher.

Searching For Bodies in Madrid

Workers are shown looking through the wreckage of houses for bodies after a recent air raid in the Tetuan district of Madrid. Many women and children have been killed by rebel bombs dropped on Madrid during the civil war which is still raging throughout the Spanish countryside.

B.C. Chamber of Agriculture Supports Controlled Market Regulations For Producers

Agriculturists, In Session At Vancouver, Report Progress Made

"We have made up our minds that regulations are necessary," was the comment of the Hon. K. C. MacDonald, Minister of Agriculture, speaking before the annual convention of the B.C. Chamber of Agriculture, in Hotel Georgia on Thursday.

The convention continued Friday, and there seemed to be evidence of ample support for the efforts of agriculturists, as supported by the government, to work out some scheme of control whereby they may secure a fair return for their products.

"Control should be voluntary, but we in B.C. have graduated from that school after years of earnest effort," the minister said. "We have made up our minds that regulations are necessary."

The minister explained that the marketing scheme set up by the Provincial Government was planned to let producers control their own production. The right of appeal to a board in Victoria and to the Lieutenant-Governor was granted.

"No greater safeguard than that can be offered," he said.

"If we can control wages and hours of work, why should there be objection to control of minimum or for that matter maximum prices of commodities which are the products of labor, and entitled to as much protection as that accorded to labor itself?"

"The last thing I want to do is injure the liberty or rights of any citizen of the country."

"Today we stand between two extremes. On the one hand is individual effort, on the other the absolute domination of the state. Between lies a road which can be followed with the best result."

That road all that the state asks is that a man conduct himself so as to make his fellow neighbor able to get a fair price for his produce."

"I am more convinced than ever that the problem facing primary producers is not production, or finding markets, but the problem of marketing in such a manner to return to producers the cost of production plus a reasonable reward for work done," he said.

Support for the minister's viewpoint was revealed from many quarters. As the two factors necessary to the success of the agricultural industry, Dean P. M. Clement of U.B.C., named marketing quotas and compulsory pools.

"That, in my opinion is the only way for the industry to reach the top," he said.

Dean Clement strongly condemned propaganda against organized marketing.

From R. D. Barrow, M.L.A., president of the chamber, came the statement that unless the group was able to convey the right idea of marketing to the public, it was not doing its best for the industry.

W. E. Jenkins, chairman of the B.C. Tree Fruit Board, stated that the public should be informed that the marketing acts do not take away anyone's right to appeal to the courts.

The two main things wrong with the farmer, in his efforts to better his position, are his inferiority complex and his willingness to "let the other fellow do it," according to A. H. Mercer, general manager of the Fraser Valley Milk Producers' Association, who was another speaker.

In addressing the closing session of the convention Mr. Mercer expressed his opinion that farmers are too prone to talk, and fail to act with sufficient emphasis.

"There have been plenty of farm organizations established," he said. "We are, if anything, over-organized, but not on an efficient basis. We should reach a standing where the voice of agriculture will be heard in the seats of the government and financial power. The Chamber of Agriculture can be that mouthpiece, instead of the present babel of voices."

M. J. Chambers stated that once

OKANAGAN CENTRE BADE FAREWELL TO THE PASSING YEAR

New Year's Eve Party Well Organized And Much Enjoyed

OKANAGAN CENTRE, B.C., Jan. 9.—The Okanagan Centre Badminton Club held their annual New Year's eve party to which all the Community was invited. About fifty people took the opportunity to gather at the Hall and see the arrival of the New Year.

A committee composed of Miss Glead, E. Bernau and S. Land had arranged an amusing number of games and competitions, while Mrs. Hare assisted at the piano and Mrs. Glead arranged the supper.

Competitions of nail driving for ladies and hat trimming for men caused much fun.

Other entertainments consisted of charades, balloon games, and an obstacle race for men in which they were required to put on overalls, shirts and socks and remove these at the end of the race. All joined in dancing Sir Roger de Coverly and in singing Auld Lang Syne at 12 o'clock.

This was followed by a few well-known choruses.

A team of badminton players were entertained by the Coldstream Club on December 28, when a series of matches were played, the visitors being the victors. Centre players were: Mr. and Mrs. C. Fallow, Mrs. Parker, Mrs. Hare and Miss Glead. Messrs. H. Bernau, F. Parker and S. Land.

Coldstream players: Misses Coleman, Garlick, Both; Messrs. Garlick, Speechley, Rendell.

Mrs. Somerford of Glenmore was a guest of Mr. and Mrs. Bernau over Christmas.

Mr. and Mrs. Goldie and Miss Ann Goldie are at the coast spending a few weeks.

Miss Joan Gibson has returned to Vernon where she attends High School, and Miss Doris Glead to Kelowna High School.

Miss Beryl Harrop has returned to Kelowna where she attends business college.

Mr. and Mrs. J. Marshall, of Wenatchee accompanied by their two small daughters, were visitors over the New Year at the home of their parents, Mr. and Mrs. G. Marshall.

Mr. and Mrs. W. Olson and son have returned from Enderby where they spent the vacation weeks.

WEATHER DELAYS SIDEWALK WORK ON RIGHT-OF-WAY

Railway Commissioners Studying Problem Of Erecting Warning On Barnard Avenue

Winter temperatures have delayed construction of the cement sidewalks on the C.E.R. right-of-way on Barnard Avenue and the work will, in all probability, not be started until spring. The agreement made between Mayor E. W. Prowse and J. J. Horn, superintendent of the Revelstoke division, C. P. R., was that, as long as there is no change in the relief situation here, the city would provide the labor if the railway would supply the cement.

The first step in having this project completed was accomplished when a gang of laborers laid down treated ties on the tracks, where they cross Barnard Avenue.

The Board of Railway Commissioners is at present studying the problem of having some sort of warning signal erected at the crossing, but as yet no word of any decision in the matter has reached the City Council.

Old Cough Yields to Buckley's Mixture

Read What Mr. Gull Says

Hamilton, Ont.: "From the time I was a small boy until the age of thirty-two, I was never free from a hacking cough night and day. Doctors told me I was suffering from chronic bronchitis—that there was no permanent relief. One day I saw an advertisement for Buckley's Mixture. The word 'bronchitis' arrested my attention. I purchased a bottle. It gave me relief. I bought two more and my cough left me completely. That happened six years ago, and the cough has never returned."

BUCKLEY'S MIXTURE will give you instant relief from the strangling torture of Bronchitis, and it acts like a flash on coughs and colds. Why not get a bottle today? BUCKLEY'S is sold everywhere and guaranteed.

Loyd Urges Growers To Work Together Towards "A More Secure Future"

President Of B.C.F.G.A. Stresses
Need For Co-operation
During 1937

"May I hope that, whatever may be in store during 1937, we shall continue to work together with increasing mutual reliance towards a more secure future both for ourselves and those who may follow us."

Such was the message given by A. K. Loyd, President of the B.C.F.G.A., at the annual convention of that association got under way at Kelowna on Tuesday morning.

After reviewing events of the past year, in which much progress was noted, Mr. Loyd paid high tribute to those who had been associated with him, and he looked forward into the future with confidence.

"I feel," he said, "that I should take this, the first opportunity, of apologizing for my absence at this convention last year, and at the same time express my gratitude to the directors and in particular to Capt. Porteous, of Oliver, for the splendid support that was forthcoming at that time and the excellent way in which he attended to the affairs of the Association at some inconvenience to himself during my absence."

"I also wish to take this opportunity of expressing to R. F. Dorsett, who relinquished the secretarial duties during the year, the thanks of the B.C.F.G.A. for his services, not only during his tenure of office but also during the period from 1933 onward, when he was devoting his time to the somewhat tangled affairs of the industry."

"I feel that we are moving step by step towards a stable basis for our industry, and though we may have yet a long and arduous journey before us, we should pause to give credit and some need of thanks to those who have, in the past, done much and made many sacrifices to help towards this end."

"We are here today to carry on this effort," Mr. Loyd continued. "Your directors, with your approval, have reduced the length of this convention from three to two days as an experiment for the sake of economy. We have foregone the pleasure of hearing from many to whom we should like to accord a place on our program. This being the case, it is our duty to see that our sessions are turned to the fullest advantage."

"Turning to the business of the Association Mr. Loyd proceeded to the resolutions passed at the last Convention, and the action taken thereon. Sixty-three were presented, of these 34 were withdrawn and 10 lost, leaving 29 with which the directors were instructed to deal during the year. He reported that definite action had been taken on all of them."

"Passing to a general survey of the year just completed, it would seem to me that the industry has demonstrated that it is capable of meeting with the shocks and reverses that have for too long been its lot, with its old courage and

determination, but that it shows a readiness to meet them with a more united front than it has for some years."

"In common with all agriculturists who have accustomed themselves to operating under the National Products Marketing Act, they were faced with a most serious problem when that instrument was rendered ineffective by the decision of the Supreme Court. In the subsequent effort made to continue operations on an orderly basis for their full support and met with a response so encouraging that the success of this voluntary effort was not left long in doubt. It is true that market conditions have been favorable and that the agreements arrived at have not, been, too severely tested. Nevertheless, it was an accomplishment that could hardly have been attained a few years ago."

"The actions that it was proposed that your Directors would take during this difficult period were discussed with the five District Councils of the Association, and it was not only of great assistance to be able to get in touch with the growers in the Locals and obtain their reactions, but was also a demonstration of the use of those Councils which should result in the future in a greater utilization of their services which are both quickly obtainable and economical."

Clear Misunderstandings

"The Association was instrumental in arranging for one meeting in Penticton for the purpose of discussing any problems peculiar to the Southern area on which information was required and with reference to which misunderstandings might have arisen. The results obtained by this meeting which the members of the Board attended in order to make full information available were gratifying, and offer an example of the useful function that the Association can perform in replacing rumors with facts and in substituting an atmosphere of reason for one of doubt and uncertainty."

"During the year a special Committee was instituted by the Association to deal with tariffs. A report from this Committee will be presented to this Convention as will those from the other two standing Committees of the Association, namely Grades and Transportation. I should like to offer my thanks to those acting, often at some inconvenience to themselves, on this Committee."

Directors' Meeting

"During the session there were held four Directors' meetings, one of which called for the purpose of meeting the Secretary of the Canadian Horticultural Council was attended by representatives of all branches of the industry. The district councils have been called together twice and representatives of the Association appeared before the Federal Tariff Committee presenting a brief in support of processed cherries at the Toronto Convention of the Chamber of Agriculture Conference. At all times your Directors have been in close and harmonious contact

Points to Future

A. K. LOYD
President of the B.C.F.G.A. who gave a stirring message to growers at the annual convention, Tuesday.

with the Tree Fruit Board, the Fruit Branch and the Canadian Horticultural Council. Mr. Haydon, your secretary, has endeavored to convey through Country Life, our official organ, as much information as possible to the growers, and has supplemented this with news letters which have been frequently received by local executives. Towards the end of the year the support of the B.C.F.G.A. was enlisted for the Prairie Relief Campaign and again the locals responded to the demands made upon them, assisting in all ways the efforts of the established organizations and setting up their own where no previous committee existed for the purpose."

"It has been the object of the Directors during the past two years to establish the Association on a firm basis as a permanent, impartial, consultative body thoroughly representative of all districts and all opinions, and available for any purpose and any emergency where connected action was essential. It should be, for the future, as in the past, a rallying point on which the industry can rely under any circumstances."

"The past year has been outstanding in the absence of all bitterness and factions and your Association would like to feel that it has made a worthwhile contribution to that happy state of affairs, but it must be remembered that this should not be a cause of surprise or even comment, for it is the nature of the industry that it should, and only when we are in that condition can the pressing needs of the fruit business be given the attention they demand."

"In closing I would commend your attention to the resolution prepared by the full executive dealing with future alterations in the structure of the Association. This proposal is not an isolated effort to consolidate activities of the fruit growers but a step, and in my opinion an important one, in what we hope will be a continued progress

GLOBETROTTERS TO SHOW HERE ON FRIDAY EVENING

Abe Saperstein's Colored Giants
Of Basketball To Perform
Against Local Men

Considered by experts the outstanding basketball aggregation touring the country at present—Abe Saperstein's original Harlem Globetrotters—will perform their dusky magic in the Scout Hall tomorrow night, Friday, and from advance indications a full house will greet the colored lads. The local seniors will provide the opposition.

A preliminary game will commence at 8:15 o'clock and doors will be open at 7:30. A matinee will be held for school children at 4 o'clock.

This year is the Globetrotters tenth consecutive season of touring Canada and the United States. The line-up of stars is changed somewhat from those that performed here last winter.

The mainstay of the aggregation, and the most colorful player in basketball today, is the six-foot four-inch Imman Jackson, centre and captain. This is his seventh season with the Trotters and his 15th in independent ball.

Others in the team are: Harry Rusan, forward, former All-American colored forward, and has been with Saperstein's men for three seasons. Bill Ford, guard, illness last season compelled him to drop out for most of the year.

Robert Frazier, guard, is a former player with Wilberforce University at Xenia, Ohio. Considered one of the best handlers and floormen in the game.

Johnny Watts, forward, a newcomer, as this is his first season with the Globetrotters.

Ted Strong, guard, a former player with Morgan College in Baltimore, this is his first season with the Globetrotters.

Harry "Bunny" Leavitt, the free-throw specialist, has been featured by Ripley, by movie sports shorts, and by nearly every athletic magazine in America, as one of the marvels of sport. His official world's record is 409 consecutive free throws.

SUMMERLAND-PENTICTON TEAM BEATS ADANACS

PENTICTON, B.C., Jan. 13.—Penticton-Summerland combined hoopers defeated the New Westminster Adanacs in a hard-fought game here on Monday night, the score ending 39-36. The local team led all the way by a wide margin, the Coast team piling up a few extra points near the end of the match.

Murdered

CHARLES MATTSO
10-year-old Tacoma, Wash., boy, whose body was found near Everett on Monday. He was kidnapped on Christmas Eve and held for \$28,000.

OBITUARY

Donald D. Larson

Through the death in the Vernon Jubilee Hospital early Monday morning of Donald D. Larson, aged 17, this city has lost one of its most popular and promising younger residents, one who has been identified with school, church and community activities to a very large extent.

Funeral services were held from the Vernon United Church on Wednesday afternoon, with the Rev. Dr. J. H. Davies officiating. The full troops of Scouts and Cubs were in attendance. Interment was in the Vernon cemetery.

Born in Ashland, Wisconsin, U.S.A., Donald came to this city with his family in 1925, entering public school in Grade two. Showing an unusual aptitude for his studies, he was usually on the honor roll, and headed the Vernon High School four year class last month. He was regarded by his teachers as one of the most promising pupils in the High School.

His chief interest outside of his studies was Scouting. He joined the local Cub Pack when he was nine years old and passed into the Scouts three years later. He entered enthusiastically in the various competitions, especially badge work, and he was awarded the high standing of King Scout. Latterly he was appointed Assistant Cub Instructor. He was also an enthusiastic basketball player.

He was a member of the Sunday School and had recently accepted the responsibility for the ushering at the Sunday evening services at the Vernon United Church, during January.

Final Action Delayed on Measure to Combine Tree Fruit Board-B.C.F.G.A.

(Continued from Page One)

A. C. Atkinson, of Penticton, raised this point, and it was also touched on by the Hon. K. C. MacDonald, Minister of Agriculture. The latter hinted that governments were chary of making a marketing control body responsible to any "association", as there is the danger of factions assuming control of the affairs of other factions. All growers, he said, according to the intent of control schemes, should have equal rights, with the government, and not an association, being the supreme power.

In this regard it was pointed out that the B.C.F.G.A., at present, embraces every registered grower, and the minister remarked that he was very pleased to learn of such a condition existing. "No distinctions are made amongst growers," added President Loyd.

"Whether the board likes it or not," said Mr. Atkinson, "it is responsible to the body of growers. If it does not fulfil the growers' wishes, it is voted out of office. The trouble in the past has been that the machinery has not been provided whereby a closer contact could be maintained between the Board and the growers at large. That is a condition we are now seeking to remedy. The directors will tell the board what it ought to do. The Board might see fit to disregard the instructions, but, if it did, it would be voted out of office at the next election. By this change you will now have a body by which you can instruct the Board."

J. J. Campbell, of Willow Point, noted that Mr. Atkinson had said that the Board might see fit to disregard the instructions. "Is the Board going to be directly responsible to the directors, or isn't it?" he asked. "That is a point that should be cleared up."

The consensus of opinion seemed to be that the Board might not, under its legal position, be obliged to accept direct orders from any group. But it was admitted that, with the organized means of conveying to the Board the growers' wishes, that the desired end could be obtained since the Board stays in power by virtue of the growers' approval.

Interlocking Directorate

There was also considerable discussion regarding the interlocking directorate. Many delegates to the convention did not seem to have a clear idea as to the intention of the resolution. But it was finally made evident to all that the plan is to continue the pro rata basis of delegates to the annual B.C.F.G.A. convention, according to the numerical strength of the locals. One of such delegates, however, would also be a delegate to the convention that nominates or elects the Tree Fruit Board.

each of the five districts. The new proposal, however, would have the 25 delegates from the different locals choose the president and four other executive members from among their own number.

W. J. Coe, Winfield, introduced an amendment asking that the vote at large be the method adopted. W. Keirns, Creston, and other delegates of that area supported him. Their claim was that Creston local has many more growers than the other three locals of the Kootenay district, and that, under the proposed new system, these other three could ensure representation of some other man than the Creston nominee, even though the latter represents the majority of the growers. "It works both ways," retorted J. S. Shepherd, of Summerland, "for under the other system you can shut out the smaller locals from ever getting a look-in."

Considerable Feeling Evident

Considerable feeling was evident when C. S. Squires, of Robson, a former director of the association, declared, "We do not feel we are adequately represented by the Creston man."

In this regard Mr. Keirns, the Creston delegate and director for the eastern area, remarked that he had always felt that the Kootenays and Creston should be separated.

Capt. C. R. Bull made a strong speech advocating the newly proposed system.

"If we have confidence enough in the men we elect as directors from each of the 25 locals, surely we can trust them to select their own executive," he declared. "And is it not absurd to elect them and then turn around and, in this ultra-democratic way go into the whole vote again to name their executive?"

A. D. Heriot, Coldstream, also pointed out that the directors of each of the locals are responsible for policy only, so long as their is the power of naming the executive. Otherwise they could wash their hands of all responsibility.

A Vote was Finally Taken, and Mr. Coe's Amendment was Decisively Beaten

A further amendment by A. L. Ballock, of Rutland, was adopted however. By it, the words "from their own number" were stricken out of the clause defining how the directors should elect an executive. This would therefore give directors the right to choose their executive, but leave them a free hand as to personnel.

When a vote was first taken on this question it was a tied decision, but after further discussion, the amendment was sustained on a second vote. Many other matters were discussed by the convention, in so far as the proposed change in the constitution was concerned. These had all been noted, President Loyd pointed out, and would be considered by the committee when it prepares the amendment for final presentation and ratification.

McGUIRE DEMANDS BETTER FREIGHT RATE ON FRUITS

Considering Service, Railway Official States Roads Get Least From Deal

KELOWNA, B.C., Jan. 12.—"Considering the service performed, the railways get the least out of the deal in handling transference of apples from the farm to the eventual consumer."
This was a statement of T. S. Acheson, of Winnipeg, general agricultural agent for the C.P.R., which prompted indulgent laughter among delegates to the annual convention of the B.C. P.G.A. in their session here Tuesday afternoon.
Mr. Acheson ventured this remark when replying to statements made by Major M. V. McGuire, chairman of the association's transportation committee, and following the presentation of the committee's annual report.

"Bearing all this in mind," countered Major McGuire, "I will think it fair to make the charge that the Canadian railways take an altogether disproportionate amount of money in the way of transportation charges."
The Major continued by pointing out that a grower works for a whole year and gets 20 to 30

cents per box for his apples. The railways, on the other hand, handle the boxes for only two or three days, and take an average of 47 cents per box.

Mr. Acheson said that he did not want to get into any argument. He admitted that traffic was not his department. "I'm just filling in for the traffic man who haven't been able to reach here yet," he said.

There were others who took up the cudgels to demand a better transportation rate. O. W. Hembling, of the Tree Fruit Board, declared that "the apple industry simply cannot continue to pay an exorbitant rate. It has been worked out that we pay \$147 an acre on transportation charges."

In his report for the transportation committee, Major McGuire had laid emphasis upon the attempt by the fruit industry of the United States to obtain a better rate from the Pacific North-West to the Atlantic seaboard for apples and pears destined for export, such rate to carry an all-inclusive service. In effect, the all-inclusive plan is to furnish either refrigeration, ventilation or heater service as needed without any additional charge to the shipper, the carrier to assume all responsibility and to give such service as conditions may require.

SCHOOL PROBLEM IS MOST ACUTE TRUSTEE WARNS

Tenders Are Called For New Bus Route In Swan Lake District

A. S. Matheson, Official Trustee of the Vernon Consolidated Schools, has called tenders, due Monday, January 25, for a new bus route on the west side of Swan Lake.

Tenders will be considered by the new School Board, however, as it will have assumed office by that time following the civic elections.

Following is a report by Mr. Matheson, covering the operations of the local schools during the past year:
The enrolment of both elementary and high school pupils has continued to expand. The combined total now numbers 1,196. This is an increase of 74 over the total for 1935 and an increase of 163 over the total of five years ago. During the last five years the average yearly increase has been about 3 per cent of the previous year's total.

Statistics covering the conveyance of pupils show that the increase in enrolment has come chiefly from the outlying areas of the district. Five years ago the school buses were carrying 138 pupils; last month 237 pupils were being conveyed.

Staffs Increased
In September last the staffs of both the elementary and high schools were increased by one. There are now 34 teachers on the combined staffs, which is three more than five years ago, but two less than the pupil-enrolment calls for. Teachers' salaries were very slightly raised during the year, but are still considerably below the average for city schools.

The financial statement has been published. The total expenditure for the schools is greater than in 1935. The erection and furnishing of two small buildings, two additional members on the teaching staff, a step toward the restoration of salary cuts (less than \$40 per teacher), the cost of conveying a largely increased number of pupils, and the increased cost of fuel and other supplies account for this increased expenditure.

During the year a study was made of the insurance problem as it relates to school property and the liability of the School Board in case of accident on the school premises. This study was initiated by the recently resigned Board and carried to completion by the Official Trustee who succeeded the Board early in October.

Transportation Problem
An acute pupil-conveyance problem which developed in September, was met by temporary measures in order to avoid incurring expense for which no provision had been made. A fifth school bus will probably have to be put on in the immediate future.
Some essential improvements and replacements were made in the equipment of the Home Economics Department, but the expenditure in this connection was less than \$175.

As is well known to most of the citizens of Vernon, two successive failures of by-laws, which were submitted to the ratepayers for the purpose of authorizing the Board to provide adequate school accommodation, led to the resignation of the whole Board. It is fitting that due recognition should here be given to members who gave so much of their time and thought to the service of the community. It should be remembered that this service was rendered entirely without monetary compensation or indemnity and in the case of some of the members for many successive years. There are not many citizens in British Columbia who have records of school board service equal to those of Joe Harwood and Hamilton Lang. The citizens of Vernon should find some way of expressing to these worthy men their appreciation of the fine service rendered.

The Official Trustee wishes to take this opportunity of expressing to the Secretary in the School Board office, the principals of the schools, the bus drivers, and the head janitor his deep appreciation of their very fine co-operation in assisting him to take over, without warning, the administration of the schools and to carry it on in connection with an otherwise full program.
The year 1937 is a year of opportunity from the standpoint of education for Vernon; problems must be met and solved, but good citizenship, teamwork, and vision can give the youth of Vernon an educational opportunity equal to the best in our Province.

O. L. JONES AGAIN MAYOR OF KELOWNA

KELOWNA, B.C., Jan. 13.—All civic offices went by acclamation here when nominations closed on Monday last. O. L. Jones is again Mayor and members of the Council are A. Gibb, A. S. Wade, and Robert White. Members of the School Board elected are George Anderson, David Chapman, and Mrs. S. D. Treadgold.

Despite efforts of the Junior Board of Trade to arouse a spirit of competition for the various offices, only enough candidates offered themselves to fill the vacancies.

KELOWNA ROBBERY LEADS TO ARRESTS AT COAST

KELOWNA, B.C., Jan. 13.—Thomas and Roger Hall, twin brothers, are in Vancouver just this week, charged with being in possession of a portion of stolen jewelry taken from the residence of Misses M. Page and A. Atkinson at Okanagan Mission on December 18.

Miss Atkinson left for Vancouver on January 8 but the case was adjourned until Friday, January 15. Four rings were found in the possession of these two men, and the rings are believed to have been identified by Miss Atkinson as the property of Miss Page and herself.

The jewelry stolen amounted in value to about \$1,000, including one ring worth \$600.

Styles for women's hats in Paris will be more extravagant than ever during 1937.
It is hoped that such application will be successful. The value of such a rate combined with an all-inclusive service would be of great benefit to the industry and would be a stepping stone to the institution of a similar plan for domestic shipments.

Smart Embroidered Bedspread

by Mayfair

MAYFAIR NEEDLE-ART

Any bedroom will automatically take on a rich and luxurious appearance with this beautifully embroidered bedspread and bolster. The very popular floral design lends itself to many combinations to blend or contrast with its surroundings. You will be pleasantly surprised at the little time it will take to finish this task. Pattern includes transfer for bedspread and bolster, details of the embroidery stitches to be used as well as complete color chart and directions for finishing spread. If you wish this pattern, write to The Vernon News, enclosing 20 cents.

Lewis Reports Peach Duty Offered Reasonable Protection

Tariff Committee Declares Further Discussion On Topic Useless

KELOWNA, B.C., Jan. 12.—"Your committee can best serve the industry by refusing to be drawn into a controversy that can serve no good end."

Such was the statement of B. A. Lewis, of Vernon, chairman of the B.C. P.G.A. tariff committee, when he presented the report of that committee before the annual convention of the association here, on Tuesday. He was referring to the arguments that had been developed, during the course of the past season, as regards the method and time of imposing dump duty on peaches.

Mr. Lewis' report, which was expected by some to offer possible material for debate at the annual session of the growers, definitely attempted to turn away from entering once again into an analysis of the contentious topic upon which so much attention was focused at the height of the soft fruit season.

The report, however, did not shirk the issues involved. While evidently seeking to avoid the entanglement of further discussion, and while branding misstatements as useless, the committee's report included reference to a statement made last September 16, which was given prominence in the valley press. This statement, issued at that time by the committee, laid emphasis on the fact that efforts had been made to secure "only that amount of protection which we believed we were entitled to, and which would result in the least amount of friction, irritation between ourselves, the government, and the consumers."

Satisfactory Policy
This, it was argued by Mr. Lewis, was what had been done. "It is my belief that the policy followed in the matter of protective values on peaches has been eminently satisfactory," was a statement made last September on behalf of the grades committee, and it was repeated here on Tuesday, in the course of Mr. Lewis' annual report.

Looking ahead into 1937 Mr. Lewis expressed the hope that "every effort will be made to arrive at a practical arrangement which will permit of added values being established and added values being early enough to take care of all commodities entitled to such protection; such an arrangement to be arrived at without working a hardship on the consumer, or distributor, or the producers, who, under present arrangements, are unable to accurately forecast production periods. All factors, the consumer, the distributor, and the government have to be dealt with equitably. And the producer must also be dealt with in an equitable manner, not left to the vagaries of climatic conditions over which he has no control."

Valley Represented
In concluding, Mr. Lewis suggested that, "We have endeavored to achieve our objective without adopting methods which would be provocative to our brother producers on the prairies who, after all, are our best customers."

The committee, for 1936, was comprised of Mr. Lewis, as chairman; L. E. Stephens, of Kelowna; and F. W. Hark, of Oliver, the north, centre, and south this finding representation on this body.

There was not lengthy discussion, following the submission of the report by Mr. Lewis, but growers of the southern areas were quick to show that they were not altogether pleased.
"This may be acceptable to the northern end," said P. C. Coates, of Oliver, "but ours is a legitimate complaint in the south. The situation as regards peaches may have been unavoidable, because of the fact that we had a short crop, but none the less we suffered. And, as regards cantaloupes, men are on relief this year who had a fine thing out of cantaloupes last season."

Mr. Lewis again reviewed the position taken by the tariff committee. "You must remember," he repeated, "that there was a government in power that was certainly not peaches, even if the Bennett government had been in power, I feel that we'd have had a very hard time to get the protection that we did this year, because of the low extent of the crop." With regard to cantaloupes, moreover, there had been difficulty in gauging the time at which the crop would come into the proper marketing stage, he added.

SINGLE AGENCY TO MARKET OKANAGAN APPLES THIS YEAR

Advertising Program Now Is Possible Under B. C. Marketing Act

KELOWNA, B.C., Jan. 13.—An advertising program, to assist the marketing of Okanagan fruits, will be made possible during next season.

Definite assurance to this effect was given delegates at the Wednesday morning session of the annual convention of the B.C.P.G.A.

The B.C. government's new legislation, it was stated by W. E. Haskins, will give ample power to take a proportionate share, for the necessary expenses, from all growers.

It was explained that an adequate campaign had been planned for the past season, but because of the up-setting of the Dominion's Marketing Act, it had not been possible to levy to obtain the requisite funds.

The B.C. legislation, it was pointed out by G. A. Barnett, does not specifically provide for any levies for advertising purposes. This would take the form of a direct tax, which is within the power of federal authorities, but, strictly speaking, outside the scope of the province.

However, the plan will likely be set up for the marketing of the Okanagan crop next season will be in the form of a single agency, the B.C. Board. This agency will appoint sub-agencies, the shippers, and it will be in the framing of working agreements between the main agency and the shippers that the advertising plan can be assured. This, at least, is the present prediction.

This resolution recorded the delegates as in favor of "a permanent program of adequate and timely advertising." The exact amount of funds to be used was not stipulated, but the resolution requested that the levy, when it is made, "be subject to the approval of the B.C.P.G.A. executive."

Board Is Logical Body
A. C. Atkinson, Penticton, asked why the Tree Fruit Board, rather than the B.C.P.G.A., should have the spending of the advertising funds, and in response to this Capt. D. M. Rattray, Salmon Arm, stated that the Board, in charge of marketing, is the logical body to know how best to administer the fund, and to get maximum results. And with this view the delegates seemed to be in accord.

Closely related to the subject of advertising was a resolution that calls for the appointment, by the B.C.P.G.A., of a "publicity committee," to combat adverse propaganda. The committee was instructed to make a survey of fruit production costs, so as to enlighten the general public regarding the true situation affecting the producer.

Resolutions To Go To Locals First
"That important and contentious resolutions be submitted to the local meetings for consideration before being presented to the annual convention for final acceptance or rejection," was a recommendation from the Vernon branch.

"I don't want to appear to be patting the committee on the back," Mr. Lewis concluded, "but I think, under the circumstances, we did a damn good job."

Mr. Coates replied that the note of satisfaction, to his mind, was not quite warranted.
"There seems to be a concerted effort to get the producers into thinking that they have received a very good deal," commented C. F. Morgan, Penticton. "I am sure it was not."

local. The convention endorsed this principle. On the floor of the convention, however, a fresh resolution can be offered, providing it meets with the approval of two-thirds of the delegates.

Likes Chamber of Agriculture
E. J. Chambers and Percy French, of Vernon, who had attended the annual convention of the B.C. Chamber of Agriculture at Vancouver in the previous week, gave brief reports. They were in agreement that the Chamber can be of vital service in uniting the producers, and in directing efforts towards improved conditions for them.

Enjoyable Banquet
On Tuesday evening a merry atmosphere dominated the annual banquet tendered the delegates by the Kelowna Board of Trade, in the Royal Anne Hotel. There was general agreement that conditions have improved, and that there is a brighter outlook for the future.

GRADES COMMITTEE DEALT WITH THREE PROBLEMS

(Continued From Page One)
LeGuen, with Bryson Whyte and Geo. Brown sitting in.
Regarding the use of containers, a majority recommendation of the committee asked the Dominion Fruit Branch to lay down regulations which would confine the shipment of B.C. apples to standard lidded boxes. This was asked for after it became apparent that the Tree Fruit Board would probably not have sufficient authority to do so. The Fruit Branch did not comply with the request. The Quebec crate was a legal package under the act but was very little used this year.

Spray Residue on Apples
An experimental laboratory has been established at Summerland to assist the growers in what might become a serious menace to shipment of B.C. apples to overseas markets. Fruit Branch inspectors have this year been responsible for selecting samples for analysis. Considerable correspondence has been carried on between the Grades Committee and the Commissioner on this subject. Valuable results have been obtained and it is expected the services will be continued and improved.

A Wide Interpretation
Damage from hail caused the committee considerable anxiety in the early part of the season. Probably never before has such a wide area been affected in such varying degrees. It was found extremely difficult to arrive at a uniform policy in all cases. Approach was made to the Fruit Branch to grant wider tolerance in this respect. The reply was that it did not wish to enlarge the already generous tolerance but would be willing to insure that the inspectors used discretion in applying the regulations. After meeting the committee, Bryson Whyte, Chief Dominion Fruit Inspector, arranged with his staff for an interpretation as wide and as nearly as possible uniform throughout all districts.
Many other less important matters were discussed by the committee which at all times maintained the most harmonious relations with those with whom it dealt.

Town and District

Dr. A. P. Hawes, of Penticton, was a business visitor to this city on Tuesday.

Dr. O. Morris, of this city, is at present at Halcyon Hot Springs, in the Kootenays.

R. F. Raikes, of this city, left on Tuesday evening for New Westminster, called there by the death of his mother.

Mr. and Mrs. G. D. Loane, of Kelowna, were week end visitors to this city, as was Hayes Richards, of Penticton.

C. W. Gaunt-Stevenson, of Watkin's Motors Ltd., returned last week after attending a convention of Ford dealers and salesmen at Penticton.

T. R. Bulman and H. O. Weatherill have returned to this city after a visit to the Coast and to Portland, where they attended the annual convention of the Northwest Cannery Association.

Miss Norah Hallins, of this city, is leaving on Friday for Courtenay, Vancouver Island, on an extended holiday. Miss Hallins will come into an inheritance and estate at the end of this month.

The Vernon Fire Brigade was called out on Saturday night last about 7 o'clock to a fire in a shoe repair shop on Barnard Avenue near the Broadway Cafe. Little damage was done and the blaze was soon put out.

To spend the next five months in the Old Country, Mrs. Richard Peters is sailing from Vancouver today, Thursday, via the Panama Canal. Mrs. Peters plans to be in England until next May. She was accompanied to the Coast by Mr. Peters.

Approximately 150 persons attended the opening night at the Vernon Roller Rink on Monday evening, at the National Ballroom. The ballroom has been leased for 15 weeks. The management announces that certain nights will be set apart for children and others for adults.

Meetings of the Canadian Club and of the Women's Canadian Club, announced for Wednesday, January 20, have been postponed until Thursday, January 21. The speaker will be the Rev. Dr. W. J. Sippell, of Victoria, and his subject is "The Eastern Trio—Japan, China, and Russia."

Miss Stella Pearson, of the staff of the Okanagan Telephone Co., on Saturday last, left on Saturday last via the Panama Canal on a visit to England. She will be in London for the coronation ceremonies next May, and will travel through England visiting friends and relatives. Miss Pearson will return to Vernon about the end of July.

Officers of Vernon Valley Lodge I.O.O.F. were installed as follows at a lodge meeting last week: Grand Noble, A. Downing; Vice Grand, W. Allingham; Recording Secretary, P. L. Topham; Financial Secretary, W. C. Calhoun; Treasurer, D. Willis. Installing officers here for the ceremony from Coronation Lodge No. 63, Armstrong, were: District Deputy Grand Master, V. T. N. Pellett; District Deputy Grand Marshal, Harvey Brown; District Deputy Grand Chaplain, W. Sugden; District Deputy Grand Warden, W. Hunt.

OFFICERS NAMED BY LUMBY W.I.
LUMBY, B.C., Jan. 12.—Very cold weather did not deter the Lumby and District Women's Institute from holding its annual meeting on Wednesday, at which the following were elected to office for 1937:
President, Mrs. J. Martin, Jr.; Vice-President, Mrs. D. W. Law; Directors, Mrs. F. Finlayson, Mrs. A. E. Gynne, and Mrs. Martin, Sr.; Secretary-Treasurer, Mrs. Wm. Murphy.

The balance sheet showed the sum of \$54 to the Institute's credit after a good year's work. A good membership has been enrolled with several new members, and it is expected much good work will be accomplished during the coming year.

O. Willoughby, of the Cherry Creek Gold Mining Co., passed through Lumby on Monday.
Cougar hunters from Livingston were considered lost for a number of days, but came in triumphantly last week with four cougars shot on Byers Range, one animal measuring 9 feet from tip to tip.

This range is well known as the haunt of deer.

On Sunday Vernon juveniles met Lumby juveniles in hockey game, which ended in a tie, 3-3.

PENTICTON SHELVES "CIVIC CENTRE" PLAN

PENTICTON, B.C., Jan. 12.—Reeve H. B. Morley informed a gathering of the executive of the Penticton public library held in the council chamber on Monday night that, for the time being, the proposed civic centre had been shelved. This did not mean that the idea was abandoned, simply that other projects had prior rights over it, he indicated.

Reason for this was that the cost was more than had at first been suggested. The original idea as broached to the council had been that a suitable structure housing all necessary features could be erected for \$50,000. Charges on such a structure, in interest on bonds, would not be greater than the amount the municipality is at present paying in rentals and other charges.

ALL CIVIC OFFICES AT ENDERBY BY ACCLAMATION

ENDERBY, B.C., Jan. 12.—Offices of Mayor and Council were filled by acclamation when nominations closed here on Monday last.

Charles Hawkins is Mayor for another term and members of the Council are E. B. Dill, P. G. Farmer, G. E. McMahon.

The School Trustees is Mrs. E. E. Harvey.
A report reached London that Ralph Fox, 36-year-old author and newspaperman, had died at Madrid. Fox was a native of Halifax, N.S. He has been political commissar for the British contingent with the Spanish International column defending Madrid.

Friends here of A. J. Hobson will be pleased to learn that he has passed with merit in the advanced senior grade elocution examination of Trinity College, London.

H. W. Galbraith, Deputy Grand Exalted Ruler of the Elks, left this week to install officers of Elks Lodges at Kelowna, Penticton, Hedley and Oliver. He returned this (Thursday) morning.

George Woods, of this city, on Saturday, received the saw news that his brother, John Woods, passed away at Vancouver. Mr. Woods is at present confined to the Vernon Jubilee Hospital for an indefinite period.

George Jacques returned to this city on Wednesday after having spent a short holiday at Vancouver. His father, F. B. Jacques, and Mrs. E. B. Jacques, have called for Honolulu, where they will spend the next two months.

Local Oddfellows held a meeting on Wednesday, January 13, at which candidates from Armstrong and Vernon lodges received their first degree in the work of the Order. Among the visitors present was the District Deputy Grand Master, Bro. Pellett, of Armstrong.

The annual meeting of Coldstream Municipality ratepayers will be held in the School House on Saturday next, January 16, commencing at 2 o'clock. The chief business is expected to be consideration of annual statements and reports from the Reeve and chairmen of committees.

Officers of the Kalamalka Rebekah Lodge were installed for the coming year as follows, at a lodge meeting Monday evening: Noble Grand, Miss Trill, Grand, Miss Grand, Mrs. E. Hunt; Recording Secretary, Miss Gladys Briard; Financial Secretary, Mrs. P. F. Morse; Treasurer, Mrs. Lantz.

D. J. Roland, for the past five years manager of the local branch of the Safeway Stores, is leaving on Saturday next for Vancouver. He will be followed in about two weeks by Mrs. Roland and their family. The Vernon Kingmen Club, of which organization Mr. Roland has been an active member, tendered him a farewell party on Wednesday evening.

Vernon, now a recognized St. John's Ambulance Centre, will have first aid classes again this winter, according to an announcement made this week by Fire Chief Ben Dickinson. The first lecture in the course of six will be given in the Fire Hall recreation room on Tuesday evening next, January 19, with Dr. P. E. Pettman as the instructor. Anyone wishing to enroll should do so as soon as possible, or in any case before the first lecture.

For the locals, George Carter and Bill McGill were put off on personal fouls.

The Vernon ladies took the measure of the Kelowna lasses by the low score of 10-6, in the preliminary.

K. C. MACDONALD TO SUPPORT THOSE IN GREATEST NEED

(Continued from Page One)
That such an amount of criticism should arise against organized marketing, "but I see no other trail that one can take leading to a betterment of the situation. We are not interfering with the just rights of the individual, nor are we jeopardizing commercial rights. There is no law that does not restrict, to an extent, the complete liberty of the individual, in the social good. And we must ever bear in mind that there are individuals who take advantage of the situation, affecting agricultural marketing, who could not have such advantages if everyone else rushed in and did likewise."

Support for controlled marketing is slowly gaining ground across the Dominion. "But example is better than precept," Dr. MacDonald reminded his audience. "Let us make a success of our endeavors here in B.C. and we shall soon have the rest of the country joining in behind."

In concluding he suggested that "it only requires a little co-operation, and a reasonable approach, to bring about a better condition for all, not forgetting the consumer and distributor, as well as the producer. But the last mentioned, so far as I am concerned, stands most in need of protection, and will be given every support possible."

At the conclusion of the minister's remarks, Capt. Rattray spoke of the trip made by a delegation of growers to the capital towards the close of the last session.

"The minister didn't need any urging from us, in his attempts to secure passage of an act whereby our control situation would be strengthened. But I can say that, considering the fact that the session was almost over, any minister with less determination and sincere desire to assist us, would not have pushed through the legislation and done so in the face of certain criticism. This, to my mind, was evidence of Dr. MacDonald's determination to do everything in his power on our behalf."

B.C.F.G.A. BUDGET TO BE ONE-THIRD GREATER

(Continued from Page One)
cord as approving the grant to him. "It is good business," declared many speakers. The sum of \$50 was also voted to each of the four directors in addition to their per diem and travelling expense.

Secondary School Teachers Federation of Ontario passed a resolution urging establishment of a board of reference to arbitrate differences between teachers and trustees. Suggested members would be representatives of the Ontario department of education, the trustees' association and the federation.

Vernon Fire Brigade was called out at 3:30 o'clock Wednesday afternoon in answer to an alarm from the Central Apartments. No damage was reported.

B. C. MARKET ACT GIVES AUTHORITY FOR 1937 CONTROL

(Continued from Page One)
dered to the Minister of Agriculture, who has made this possible, and he then went on to explain the proposed method of control in general terms.

The Act, he pointed out, will enable the Board to control the flow of produce to the market. It does not control the price, except for that part of the crop that is marketed outside the province.

"I know," he stated, "that there are many growers who believe that an Act which does not permit control of the price is of no value. You will all remember that when I first took up my duties on your behalf in the fall of 1933 I myself was of that opinion."

"After more than three years work and because of the experience gained in that work, I am now convinced that the right to control the price is not the essential factor of control. Undoubtedly the price a farmer should receive for his product is a price which will give him a fair return for his labor, interest on his investment, and an allowance for depreciation, and at the present time, and up to this time the fruit farmer along with other agriculturists has not even received a fair return for his labor."

The speaker pointed out that farm income is down \$600,000,000. "It is not only exceedingly unfair to the farmer, it is unsound in an economic sense for the whole Dominion and certainly it must be corrected, but this condition cannot be corrected merely by marketing legislation, and the only thing marketing legislation can do is to render it possible for the farmer to secure for his product the best price that is obtainable from the market under the adverse and unfair conditions which the farmer has to labor."

"The reason for the legislation is that without control under legislation the farmer receives from glutted markets either nothing at all, or less than nothing, or at best less than would be the fair market price if the market were not glutted. Control of the marketing under legislation enables him to assure that the demand of the market will be met, and that a greater supply does not reach the market than is warranted by the demand. The price at which the product shall be sold in that market is not governed by the necessity of the farmers, but by the strength of the demand, and the price of competitive products."

The new legislation contains sufficient powers, Mr. Haskins continued, to enable a Board set up by the growers to so regulate the flow as to meet the demand and prevent glutting.

He referred, of course, only to the domestic market in this regard, but he also touched on the export question, and suggested that it might not be impossible to co-ordinate the flow of both Canadian and U.S. apples to the overseas trade. And not before there is such co-ordination, Mr. Haskins said, will really the best results in export control be obtained.

The speaker urged all growers to keep closely in touch with the affairs of the Board, and in concluding laid emphasis upon the value attaching to the development of such an organization as the Chamber of Agriculture, in furthering the cause of primary producers.

ONE-DESK SALES PLAN WITHDRAWN

(Continued from Page One)
tracts known to be infested with codling moth to other areas still free from infestation.

That the government be urged to keep country roads, particularly the secondary routes, in better repair.
That a blanket hall insurance scheme be sought by the B.C.F.G.A. executive.
That the farmer-trucker be allowed to take part in road work done by contractors without paying any further license.

Appreciation Voted

Many recommendations on grading, when forwarded to the Grades Committee, or other value-alizing subjects, were handed to the appropriate committees of the association. It was largely a routine procedure. A large number of resolutions was also withdrawn, and the convention this year was marked by the absence of practically anything of a contentious nature. Only a few resolutions were voted down. Many were unanimously endorsed. The final resolution on the agenda expressed the appreciation of the growers for excellent service given by "Country Life," the B.C.F.G.A. official magazine. Votes of appreciation were also tendered to the staff of the Experimental Station at Summerland and to the B.C. department of agriculture officials and field staff for valuable work done on the growers' behalf.

Miss Trimblene, of Rokishk, Lithuania, gave birth to quadruplets recently. The infants, two boys and two girls, were doing well.

DECLARED EDUCATIONAL AIMS

As high as the suggestion given in one of the old Ontario school books of almost a half century ago. The advice is as good now as when it was first given though there is undoubtedly a great difference in the "high" things that should be aimed at.

The Department of Education of the Provincial Government has issued a statement of aims for elementary, junior high, and high schools that reminds everyone of the motto in the old school text book. Not all of the things aimed at can be achieved but it is well to examine them so as to get in tune with the thoughts in the minds of those directing our educational system. There is no need to be frightened by the ultimate in the aims set forth. They may be like our hopes for Heaven, elusive.

Elementary Schools

To accomplish its purposes the Elementary School should provide experiences necessary to meet the common needs of all children, that is:

To develop an appreciation of the value of physical and mental fitness and to build correct health habits.

To develop the child as an individual through instruction, training, and experience based upon his needs, interest, and abilities.

To stimulate and develop desirable self-expression.

To bring children to a progressive understanding of the problems, practices, and institutions of social life; and of their responsibility for social and civic welfare and progress through acceptance of pupil contributions.

To develop to as high a degree as possible, skill in the fundamental processes in all school subjects and in life situations.

To encourage interest in art, music, literature, nature, and play for the enrichment and enjoyment of life.

To develop and practise desirable habits, attitudes, and appreciations of right behavior which will enable the child to live more effectively and to co-operate in home and community life.

To develop the habit of critical thinking and effective study.

To foster the desire for continuous education both in and out of school.

For Junior High Schools

To direct and stimulate individual growth in the following ways:

To improve further, according to individual capacities, the habits and skills in the fundamental process through the use of materials and activities which in content and method are of vital importance to pupils at the beginning of adolescence.

To continue to develop the understandings, attitudes, and habits which are of importance in the realization of emotional, mental, and physical health of the individual and of the community.

To furnish for all pupils opportunities to explore some of the possibilities of the general fields of knowledge, in sciences and mathematics, in language and literature, in commercial, fine and industrial arts, and so reveal to pupils some of the possibilities in the major fields of learning and their own dominant interests, capacities, and limitations for them.

To give all pupils a body of information about educational opportunities and occupations; then to help them to make wise choices in their future vocational activities or in the continuance of their education in the higher schools.

To develop habits, understandings, attitudes, and ideals in the class-room, library, club organizations, assembly-hall, lunch-room, and on the playground, which are essential to social living in the school, in the home, and in the community.

To develop tolerant and critical understanding and behavior in relation to society and its problems through pupil participation, pupil co-operation, and pupil contributions.

To provide for active and vicarious experiences calculated to stimulate lasting appreciations of beauty and of leisure-time, interests in literature, music, art, nature, and science, philosophical reflection, practical arts, and human associations in order to satisfy the individual's desire for enjoyment; also, to develop in children, according to the degree of native ability, a reasonable skill in creating beautiful and useful things.

To develop in boys and girls through all fields of subject matter and through every class-room situation an understanding appreciation of right and wrong, and a desire to attain a high standard of personal conduct.

To cultivate habits of critical and independent thinking, evaluation of propaganda, and to strengthen further the ability to study.

For Senior High Schools

To continue to refine and improve the numerous skills required by society in the fundamental processes, especially in the curricular and study types of reading for various purposes, and in oral, written, and graphic expression by constant practice in all departments of instruction.

To develop the ability to solve problems; to do critical reflective thinking; to summarize and formulate generalizations from concrete situations; to apply these generalizations to other fields, and to develop effective and economical study-habits.

To establish the understandings, habits, and ideals which are of importance in the realization of mental and physical health for the individual and for the community.

To provide varied and numerous experiences which will give the pupil the necessary understanding of himself and of vocations in order that he may be helped to choose intelligently, to plan his application for, to enter upon and to make progress in his chosen occupation.

To develop interest in and habits of employing leisure-time for worthy enjoyment in order to promote personal growth and human betterment; to develop high standards of appreciation and enjoyment of the best in music, art, literature, drama, nature, architecture, and other arts.

To train pupils in the skillful and economic management of household affairs, to give them a knowledge of suitable, practical, and aesthetic standards of living, to the end that the co-operation in the home by all its members may be secured.

To provide experiences which will make for tolerant understanding of modern social problems, and of the interests, possessions, privileges, and duties which one citizen shares with another in a democratic society.

To develop high and just standards of moral values and to develop right habits of action through high ideals of citizenship, the ideal of service, the faithful performance of duty, and the insistence on personal responsibility for conduct.

Is there any reader, anywhere, who does not wish that in his or her early life the aims of the schools had been as wide, as useful and as practical as are the above.

Past the Wall

Autumn is shuffling past the wall of Time
Again. I hear his feet in crisp leaves
That eddy on the road. I hear his rhyme
In songs the rain is chanting to the eaves
And gables of this tower.

Over the sheaves

Of grasses mouldering on the hill's bleak crown
The wind is riding like a wistful dream
Come back to rove awhile above the town,
Where all the summer bronze and golden gleam
Of sunlight played on roofs and window-panes,
To merge with sunset's mantle at the last.

The earth is drowsing briefly now; the lanes
Have lost their green in gold of fluttering past.
Let the year spread its final sordid pall—
Autumn is shuffling past November's wall.

—JESSIE PLAYFAIR BICKFORD.

QUIT SNEERING AND GET TO CAUSES

IT is so easy to see the mote in the eye of another and to miss the beam in your own. Many readers of the Toronto Saturday Night, in the Province of British Columbia, have been wishing that intelligent journal might devote, during the new year, some attention to digging out causes and in suggesting remedies, rather than to jibe at maybe pitiful and possibly impotent attempts to find remedies.

Towards the end of last year there was the Reece Hague series of articles in Saturday Night. These attempted to hold up to ridicule, honest attempts to secure for producers a fair return for their industry, and which a person with any thorough knowledge of events, could expose as being pure propaganda, suppressing important facts, wrongly placing emphasis and giving an inaccurate reflection of purposes. The effect of the Hague articles was to leave in the minds of informed readers the opinion that Saturday Night will go to any length to discredit some movements, however mistaken, which have their origin in abuses that are intolerable. This impression is deepened by an article in the January 2nd issue headed "Provincial Tariffs."

What Manitoba is doing, in the matter of extra-provincial beer tax, is closely related to what British Columbia is proposing for horticultural products and what seemingly all the provinces of Canada outside Ontario and Quebec must do, if the presently intolerable conditions remain.

The central provinces of Canada are so satisfied with the situation that they cannot understand why other sections are restive. Apparently it has escaped them and

is continuing to do so—that there may be something wrong of which they know nothing. There may be conditions imposed by distance, population, climate, or a thousand and one things, which have to be taken into account in promoting the welfare of the ten million people in the millions of square miles of habitable Canada.

Saturday Night aspires to reflect the significance of events even to peoples down by the Atlantic, on the Prairies and in the mountain fastness of British Columbia. It is not doing a good job when it sneers and snipes.

It is much more interesting and informative to read about the unexpectedly startling causes and effects. No paper can get accurate accounts from party organizers or from men who sit too close to the money pots of vested interests. It may get the commendation of certain vested interests but it is not doing a job for Canada and it is only in doing that, it can get the circulation and the power to which a national publication aspires.

On Being Photographed

By "E. T."

We have recently been bombarded by appeals to present our friends with all sorts of useless articles for Christmas. Among these attractively displayed suggestions, is the simple request to "Give Your Photograph—The Gift That Only You Can Give." Now, true! I feel for that line. For, after all, I reasoned, haven't I been delighted to have Mary's photograph last Christmas? Her lovely smile has inspired me all year. Maybe my own character will penetrate and overwhelm contemplation of the irregularity of my features (What a lot to expect of my character!). Anyhow, why should I be discouraged because my chin line isn't everything it might be? There are some absolute wizards in the picture business and why shouldn't one happen to work a miracle with my face? I might be lucky for once.

The more I thought about it the better it got. This photograph would solve the problem for at least six gifts (prints come cheaper in half dozens) and I quickly thought of six unsuspecting victims.

But I decided to be very practical about it all. Instead of submitting myself all unprepared to the whims of the photographer, I studied up on the art of make-up for use before the camera, etc. Ginger Rogers once took two hours being prepared for a photograph with a face like hers; then why should I feel silly spending a little time preparing a face like mine? This time I determined to pose myself, and with this idea in mind spent a very disconcerting ten minutes before the bathroom mirror.

Gosh! My forehead is going into wrinkles worse than I realized! But retouching is a marvelous art (I would make a special effort to get a good retoucher). Now I have often been referred to by my new acquaintances as a "kind" face.

So I decided not to have him concentrate on all this "kindness" but to highlight my hair, which undoubtedly is my saving grace. But I shrank from a profile on account of my receding chin, and if he took me from above, I elongated my nose, about which feature I have always been sensitive until I realized that Myrna Loy has risen to fame in spite of hers. You think Myrna Loy's nose? The movies certainly reveal some startling tastes! And I resolved to force this photographer to do a three-quarter view, and also a full-length shot and brave the truth about my figure.

So I sat down with my hair duly brilliant and my eyes "dewy" according to instructions. By the time I was at last admitted into the holy of holies, I was completely confused, and turned, regarded my hands, etc., exactly as I was told; until I happened to notice one of those funny bunny-eared animals used to amuse the children. It had such an astonished expression I couldn't help grinning, and the fat-head photographer described the result as "delightful" and took it. This is the proof I have been persuaded to have finished. . . . that sticky grin in sepia. Ah well, one imagines all sorts of things about oneself, until forced to face these unprejudiced proofs. I wonder if I'll have the nerve to present them to anyone. . . . Perhaps Mother won't mind—on the relatives in Tennessee!

THE RACE IN ARMAMENTS

On the first of January the race in armaments entered a new phase. The Washington and London naval treaties expired at the end of 1936, and on New Year's Day Great Britain laid the keels of two 35,000-ton battleships. The United States also plans two. France has added to her ordinary program a special allocation of \$72,000,000. Italy intends to build one battleship, perhaps two. German naval shipyards are working overtime, and Berlin has just announced an enormous supplementary building scheme. Now in every country there are elements to which naval armament appeals with peculiar strength. But it is hard to justify the building of these costly and rather cumbersome monsters. Even in the last war battleships were too precious to risk in action. In a recent controversy in England about the value of heavy warships the margin of victory rested definitely with those who urged their uselessness. We seem to be returning to the most expensive and least effective kind of armament. —The New Outlook.

Revenge is always the delight of a petty, feeble, meagre mind. — Juvenal

A Dairy Pasture In The Beautiful Okanagan

Real pasture for the dairy cow. Clovers and grasses in suitable combination.

Prince Palliate By Sarah L. Fosbery

IN all the awards and honors bestowed upon national heroes the most worthy men have been neglected. The loom, the printing press, the kitchen range, modern plumbing, the motor car, have contributed so much to the comfort and enjoyment of mankind that the inventors should be classed as princes in the coming collective universe.

One may now dare to say those two wicked words. The first to use the term "collective universe" in British territory was hanged, and then beheaded as an additional warning to evil universalists, by the singularly unimaginative and insolent tyrants who at that period infested Erin's green isle. Not so today. We are learning; but oh, so slowly.

To return from insolent tyrants to universal benefactors is pleasant. Among their offerings, clad in cosy products of the loom, surrounded by interesting gifts of the printing press, amply sustained by the good graces of the kitchen range, I honor those who brought these comforts within my reach. Yet there is one who above all others merits

its distinction, but is likely to pass into oblivion if his case is not presented by his most devoted admirers.

To accept without public expression of gratitude, a simple invention that contributes to the health and comfort of the poorest, would be niggardly indeed.

Friend of the fatigued; relaxer of tense muscles; soother of irritated nerves; warmer of icy limbs; early morning substitute for the hot tap; ministering angel to depressed-dough-thawer-of-frozen-pipes; place card for the diner who loathes cold meals; ever-ready incubator for the young of the animal kingdom; good fairy of bedroom, living-room, kitchen and perambulator—we salute you in unison, dear hot-water bottle!

No boundaries exist in the world of ideas. Your inventor, whose name I do not know, is a figure of vast importance. As the awards in a collective universe should indicate the measure of a man's contribution to happiness, his title could be nothing less than Prince Palliate.

WATERFOWL

Ducks are scarce! Ducks are plentiful! No ducks came south! There were millions of ducks! Start asking questions about the duck flights any year, and you can get any answer you desire, if you just keep on asking; according to a recent issue of a United States fish and game periodical.

A year or so ago we were told by the Government that the scaups were very scarce. This year not a word has been said about the bluebills, blackheads, broadbills, or whatever you call Mr. and Mrs. Scaup. Now we are told that the canvassbacks and the redheads are nearly extinct. This year, if you shoot a redhead, you violate the criminal code of the United States of America.

Yet I doubt if there are ten men in the United States and Canada who can consistently distinguish between a single female redhead and a female greater scaup when the birds are on the wing. In fact, few duck shooters can classify these birds correctly when they have them in the bag.

At the present time, under the existing policy of petty regulations which harass and irritate the hunter, rather than conserve the game, you are a criminal if you shoot a buffhead, a ruddy, a canvassback, a redhead or a wood duck. It makes a thoughtful person wonder what species the great army of Government guessers will pick on next.

You are also a crook if you shoot a duck before seven in the morning or after four in the afternoon. If you own a drake and a couple of "scaups" or an old Canada gander, you are a suspicious character, for live decoys are decidedly illegal in this land of the free.

Some of us are lucky enough to live close to the flyways, and when conditions are right we can go quickly and slam the ducks as often as we please. Unfortunately others, who enjoy duck shooting fully as much, have to travel far to reach the duck-shooting areas. Such men must plan ahead and take weather conditions as they find them.

Under present Federal law, no one may ever have more than ten ducks in his possession. A man may shoot seven days a week during the open season, but he must get rid of his kill in some way and take only ten birds home with him.

I know about this. I have been studying this particular regulation and am to-day taking ten wheat-feld mallards home with me from Canada. I'm sorry I couldn't have taken twenty. Duck-shooting friends would have appreciated those fat grain-fed mallards.

For years I have journeyed in the fall to the prairies of Saskatchewan, the factory where most of our ducks are manufactured. This gives me the opportunity of comparing each season with the preceding one. Last year there were many more waterfowl in evidence than the year before. This year there were easily three times as many birds as there were last year.

In fact, ducks were so numerous on the prairies that we never hunted them seriously. While hunting Hungarian partridge and prairie chickens we would pick up the "odd duck," as our Canadian friends would say, and

then maybe stop along some prairie slough for a little fast and furious shooting.

Practically all common species of waterfowl were numerous, with mallards and canvassbacks the most plentiful. One morning, in one hour, I killed the limit of twelve ducks, choosing nine different species of fowl—green-winged teal, blue-winged teal, spoonbill, widewood, gadwall, pintail, mallard, canvassback and redhead. If I hadn't filled the limit with mallards, I could have added three more species before the day was done, as I had easy shots at ruddies, bluebills and one old white-winged scoter.

The fact that there were three times as many ducks where we hunted as there were last year does not mean that there are now three times as many ducks in the country as a whole. You can't count ducks, any more than you can go out behind the barn and count the flies. However, trained observers can estimate the number of birds in areas of heavy concentration. This would have little value if done in the fall for birds vary their flights, depending on food and water conditions. Most assuredly such estimates could not be made during the nesting season, when fowl are more widely scattered than at any other time.

Honest, two-fisted men, however, who know ducks and are not afraid to get their feet muddy can do the job during the heavy spring concentrations and on the wintering grounds. Estimates made by picked men paid to do the work would year after year give the Federal Government worth-while figures to work with. After sound material had been gathered by competent men, and not by namby-pamby casual observers who go afield when the weather suits, the Government could crack down hard, if necessary, and the sportsmen would not grumble.

And may we once more suggest that the Government actively interest itself in the floating oil menace which hundreds of ducks annually. Last year many bluebills, redheads and canvass went the oil route. In spite of Federal law, there is plenty of oil on the water along our shores.

Thousands upon thousands of ducks die in the West from the so-called duck disease each year. David H. Madsen, who first reported the loss of millions of ducks in one season on the Bear River marshes, says that in 1935 thousands died on other shallow marshes near there.

It might not be amiss to spend some of the hunters' license money to control the crow and the snapping turtle and the human skunk that catches diving ducks with an underwater net and shoots and traps marsh ducks for the market.

By all means, the policy of adding petty nuisance regulations each year should be abandoned. Such rulings break down game-law observance and make many men willful violators of the law. Other fellows, with the best of intentions, are liable to be haled into court as criminals.

Above all, such laws do not save ducks.

Ray P. Holland.

From The Vernon News Files of By-gone Days

L. I. Stewart was elected Mayor by acclamation at the civic elections last week. Alderman elected were Frank Spencer, Thomas Robertson, and A. S. Hurlbut. Thursday, Jan. 13, 1906. School Trustees, Hamilton Leffroy, police commissioner, B. A. Bradley. The first issue of "The Cream Collector," official organ of the Okanagan Valley Co-operative Creamery Association, has just been published. "The Pollies of 1927" will be presented by the Kalamulka Players in the Empress Theatre on February 7-8. The Vernon ladies' basketball team is slated to play a team of local girls at the Scout Hall on Monday night. The Pike line-up includes such well known athletes as Joe Harwood and D. A. McBride. The Quarterly Official Board of Central United Church has asked the pastor, the Rev. W. B. Willan, to stay for a fifth year of ministry in Vernon. During the 52 years of the local church no minister has ever occupied the pulpit longer than four years. —P. H. Jacques has received word of the death in Calgary of his brother, George E. Jacques.

Vernon voters at the polls on Thursday of last week, endorsed Thursday as the date for the weekly hall holiday. The vote was Thursday, TWENTY YEARS AGO 171; Saturday, 92.—The situation in which Vernon found itself last week is absolutely unique. Only two names were presented for the Council on nomination day, and E. A. Shatford was elected Mayor with Alderman Hall as his sole colleague on the Council. According to the Municipal Act, members of the Council have power to appoint other members in such a situation as this, and Mayor Shatford states that he has already four capable men lined up.—The Vernon News has received an interesting letter from "Vic" Burnett, who has been at the front with the Mechanical Transport Service.—Eight British and two French merchant ships are believed to have been sunk by a German raider in the south Atlantic.—There are indications that farm properties are beginning to take a place on the market again after a long lapse.

Okanagan Centre land has now been placed on the market, at a price of \$125 an acre. Over 4,000 acres have been subdivided into ten-acre lots with an elaborate irrigation system.—The colony warden of the past week has provided excellent skating and a number of merry parties have been held at Kalamulka Lake.—The organization of a chapter of Royal Arch Masons was effected on Thursday of last week.—Alderman elected at the civic elections on Wednesday were H. Knight, O. F. Costerton, R. W. Timmins, J. E. Ross, and A. Lishman.—On Friday morning last two ranchers at Whitteman's Creek, on their way to Okanagan Landing, discovered the body of Harold Clayton adrift in a boat on the lake. Clayton left the Landing to return to his home at Whitteman's at 4 o'clock on Friday last. It seems evident that ice on the lake was too thick to break through with the boat and too thin to walk on. He died from exposure.

W. J. Armstrong, Mayor of Vernon for 1907, having defeated P. A. Meyer in the civic elections. Aldermen are: Frank Spencer, Thomas Robertson, A. S. Hurlbut, H. C. Henderson, H. C. Cooper, and Ed. Goulet.—Quite a ripple of excitement spread through the city on Tuesday when it became known that the Camp Hewitt Mining Co. had sent up some very rich specimens of rock from one of their claims on Okanagan Lake. Camp Hewitt is situated on the west side of Okanagan Lake about 45 miles below Okanagan Landing.—The death occurred at her home in Landowne on Tuesday of Mrs. Daniel Coughlan, a highly esteemed resident of that district.—Dr. O. Morris was elected a vice-president of the British Columbia McGill Graduates Association, at a meeting in Vancouver.—Thomas Crowell, Jr., was the winner of the men's race at the skating rink this week. B. A. Shatford and Miss Adelle Smith won the ladies' and gentlemen's races. Miss Smith captured the ladies' race.—The War Eagle mine at Rossland has been purchased for \$850,000 cash by the Gooderham syndicate of Toronto.

Montreal Today

"Montreal accepts as a fact the belief that the depression is definitely over," declared Rev. Dr. J. H. Davies, in giving an address on "Montreal" to the Rotary Club at their luncheon last Monday. Dr. Davies, pastor of the Vernon United Church, recently returned from a month's visit to Montreal.

The city of Montreal, he told the Rotary Club, is easily the largest city in Canada, as well as the fifth largest city on the North American continent, with a population of one and a quarter million. The island on which the city is situated, was visited by Jacques Cartier in 1534 and named Mont Royal by him. The saintly Olier, of the St. Sulpician Seminary, had a vision of a city of white people on the island, long before one white person had settled there, the spot visited by Cartier being then occupied by the Indian village of Hochelaga, and in 1542 Maisonneuve led a band of settlers to found the City of Montreal, which was said to be a City of God. The first settlers were many times attacked by the Indians, and a tablet on the Bank of Montreal building in the Place d'Armes, the most historic spot in a richly historic city, states that the bank stand on the site where in 1544 Maisonneuve fought his hardest battle with Indians and there killed the Iroquois chief with his own hands.

Historic City Dr. Davies went on to speak of many interesting modern facts about Montreal, saying it was also, one of the few really historic cities in America. He said that a wonderful thing it was that Mount Royal had been preserved as a park, instead of being turned over to building speculators, and mentioned its fame as a winter sports playground.

One of the most beautiful sights in Montreal was the immense cross erected on the point of the mountain facing the sea. Maintained by a brotherhood, this cross was brilliantly illuminated with electric lights at night, and could be seen for forty miles down the River St. Lawrence. The city, he said, had many wonderful buildings, mostly built out of grey stone, including McGill University, St. James United Church, the Presbyterian Church of St. Andrew and St. Paul, and Notre Dame Church, a church historically associated with the city from its beginning.

On Christmas Eve 15,000 people packed this church for Midnight Mass, and hundreds were turned away. He also mentioned St. James Church, a one-third-sized replica of St. Peter's in Rome. Among modern steel and cement buildings, the outstanding one was the Sun Life building, a huge pile erected at a cost of \$23,000,000 dollars.

Montreal, he said, was the gateway to the West for Canada. The city port was the world situated one thousand miles from the ocean, it was within overnight travel to and from New York, as well as being the leading railway centre in the Dominion.

Interesting Facts Among many interesting facts the speaker stated that: Montreal has the largest and oldest brewery in America, is the second largest seaport in America, is the world's largest grain shipping port, as well as the location of six of Canada's leading banking institutions, and the home of the two largest transportation systems in the world. It is the port of shipment for one third of Canada's entire national trade, and has the largest cold storage warehouse in the world.

There are many foreign quarters in the city housing various nationalities, and the Jewish people have twelve synagogues there. It is both cosmopolitan and bi-lingual, with French and English spoken in every store and in the French Canadian numbering about one third of the entire population.

Attended Luncheon Dr. Davies also told the Rotarians that he had the privilege of attending a dinner given by the Rotary Club of Montreal, held in the Windsor Hotel, where the club entertained Christmas dinner about 400 under-privileged boys, and gave them a marvelous program of music and vaudeville, presented by several of the leading radio stars of the city.

But, he concluded, he was only too glad to return to Vernon, for the Okanagan still possesses the finest climate in the world.

CORRESPONDENCE

Three Things Necessary

Editor, The Vernon News.

Sir: Last Thursday afternoon, in the Relief Office at the City Hall, people argued over the question of whether four families in Vernon should, or should not, starve in a land of plenty.

The present type of society, which sociologists call capitalism, to distinguish it from even more primitive forms of society, is not one of civilization, but one of barbarism, and I look forward to the time when a higher or type of society will be established wherein there will be employment for all those willing to work.

A strong young man with five or ten dollars in the bank should be able to have relief work, and for that matter, even a millionaire should be permitted to receive relief money, if he feels like working for it.

It is not correct to say that it would be detrimental to the country to give more people relief work, because relief creates all consumption, goods and means of production.

When stockholders pay taxes which go out for relief they do not lose money, because they get the money back in the form of profits from the sale of goods.

It is not correct to say that there is no work to be done. Many houses in Vernon do not have civilized plumbing and more and better houses could be built. A scenic highway could be built to the top of Silver Star Mountain, but any statement that work cannot be done because there is a lack of money is an admission that the present financial and economic system is inadequate and must be replaced by a newer and more civilized system.

Orthodox economists tell us that the three things necessary to produce wealth are capital, land and labor. In this is the case, capital must be there to finance the production, and there is nothing wrong with raw materials and labor is willing and able to work.

Yours truly,
Norman Tucker.

City of Vernon Financial Statement 1936

Auditor's Report

January 6th, 1937.

To the Mayor and Aldermen of the Corporation of the City of Vernon,
Vernon, B.C.

Gentlemen:—
I beg to report that I have examined the books and records of the Corporation for the year ended December 31st, 1936, and present herewith duly signed by the Treasurer and certified by me:
"A" Balance Sheet.
"B" Statement of Receipts and Disbursements.
"C" Operating Account—Waterworks System.
"D" Statement of General Revenue and Expenditure.
"E" Schedule of Bonded Indebtedness of the City.
"F" Board of School Trustees Accounts. (Signed by the Official Trustee and Secretary of the School Board and certified by me.)

BALANCE SHEET

The Cash on hand was verified by actual count. The Bank balances were verified by comparison with your books of account and with certificate obtained from your Bankers.
Land Reversions 1935 and Prior, \$126,177.95—This asset is shown at ledger value—Upset Price.

SINKING FUNDS—
Owing to there being a sinking fund surplus, the Corporation exercised the powers given under Section 200 of the Municipal Act and passed by-law No. 654 on April 27th, 1936, enacting that a portion of the said surplus should be applied in payment of the 1936 requirements for Sinking Fund and Debenture Interest.

Statement "B" discloses that during 1936 the Debenture Liability was decreased from \$168,618.00 in 1935, to \$145,118.00 in 1936, a reduction of \$23,500.00. This reduction was obtained by cancellation of City Debentures, prior to maturity, authorized by resolution of your Council on December 7th, 1936. My examination disclosed that these debentures with coupons attached were cancelled.

Sinking Fund Investments—For verification of these securities, I have accepted the certificate of your Bankers, Bank of Montreal, who hold these securities in safe-keeping. This certificate is signed by the Manager.

CERTIFICATE

I beg further to report under section 353 of the Municipal Act, that:—
(1) I have obtained all the information and explanations I have required.

(2) In my opinion the Balance Sheet referred to in this report is properly drawn up so as to exhibit truly and correctly the state of the affairs of the Corporation according to the best of my information and the explanations given to me and as shown by the books of the Corporation.

(3) In my opinion the records and forms in use are suitable to the requirements of the Corporation.

All of which is respectfully submitted.
LEIGHTON E. TRIPP, S.F.A.E.,
International Accountant.

Vernon, B.C.,
January 6th, 1937.

REAL WINTER NOW EXPERIENCED IN PEACHLAND AREA

Women's Institute Convenes
Appointed At First
Meeting Of Year

PEACHLAND, B.C., Jan. 9.—Four inches of snow fell here last Tuesday while another three inches fell Saturday. With no government thermometer available the exact temperature during the last week has been hard to find, as local thermometers vary.

It would appear that the correct temperature here would be around four degrees above zero at the lake with lower temperatures further back. Friday's strong south wind caused considerable drifting, while the lake was very rough. There is no ice on the lake at this point.

W. I. Meeting
Mrs. W. D. Miller took her place as president of the Women's Institute at the first meeting of the year on Friday afternoon.

Because of the weather the number of members present was much smaller than usual, but a most interesting meeting was held which was addressed by Miss Gowan V.O.N. nurse, on the subject of Public Health.

Miss Gowan was appointed convener of the Public Health Committee, while other committee heads were appointed as follows: Community betterment, Mrs. P. N. Dorland; education and better schools, Mrs. G. Dell; industries, Mrs. R. Stewart; agriculture, Mrs. J. Cameron; home economics, Mrs. A. C. Vincent; peace and international relations, Mrs. E. H. Pierce; legislation, Mrs. D. F. Gummow; canalization, immigration and national events, Mrs. G. Lang; Mrs. F. Young was elected director in place of Mrs. P. Gowan, who resigned. The president announced that the February meeting would be a Valentine Tea, with two prizes offered for the best Valentine with a verse.

The audit's report was given by Mrs. G. Dell. Expenditures for the year were \$208, with receipts \$277, leaving a balance of \$11.

The sum of \$80 was reported on hand after all expenses for the year had been paid. At a meeting of the Athletic Association executive held at the home of the secretary, Mr. E. H. Bowering, on Wednesday, the date of the annual meeting was set for January 27.

A special meeting of the School Board was held Monday night to arrange for discipline and supervision of playgrounds with the teachers to be present. Owing to the absence of Mr.

Millions For Jobless

Baron Nuffield, who made millions in a vast manufacturing organization, has donated \$10,000,000 to

STARS OF RADIO, SCREEN AND THEATRE ARE UNITED IN "THE BIG BROADCAST"

Finally the most delightful film of beauty, wit, music and rhythm offered during the current season, "The Big Broadcast of 1937" which comes to the Empress Theatre on Friday and Saturday, January 15 and 16, brings to the screen a generous helping of the air-wave's most outstanding performers aided by a host of the screen's best entertainers.

Scintillating, gay, tuneful and often hilarious, "The Big Broadcast of 1937" includes Jack Benny, George Burns and Gracie Allen, Bob Burns, Martha Raye, Benny Goodman and his orchestra, Shirley Ross, Ray Milland, Frank Forest, Benny Fields, Leopold Stokowski and his Symphony Orchestra.

SMALL ATTENDANCE AT RE-OPENING OF SCHOOL

ERWING'S LANDING, B.C., Jan. 6.—School re-opened for the new term on Tuesday, the 6th. Owing to sickness, bad weather and other causes, there is a very small attendance these days.

Congratulations are extended to Mr. and Mrs. Roger Penso of the Forest House, upon the birth of a son.

and many other outstanding singers, dancers, musicians, comedians and specialty performers.

The story deals with the romance that blossoms between Miss Ross and Milland when the latter is assigned to bring her off the air by Forest, an orchestra leader, and Benny, the studio manager.

"I Look With Confidence To The Year 1937 As One Of Continued Progress"

— Mayor E. W. Prowse

Annual Report Shows Advances In Building, Industry, And General Activity

"I look forward with confidence to 1937, feeling that it will undoubtedly be a year of even more continued advancement and progress than was 1936."

Such was the statement of Mayor E. W. Prowse, in presenting his report at the annual civic meeting held at the Scout Hall on Tuesday evening. His Worship's resume, which appears below, gives a detailed picture of this city's "march back to prosperity" together with a glimpse into what can be looked for in 1937.

Staff

What for the past four years I have termed extra work, maintaining at the City Hall, has become apparently a permanency, regarding the handling of relief, relief to our own citizens and other classes, rightly charges on the Provincial and Federal Governments. The expense of its administration is borne by our city.

Financially, the city is in a good position. Everything has been done to lessen the burden on the taxpayer, carefully, systematically and in the fairest way possible to all, and without delay. Everyone received free lawn water, the rate was kept down to 40 mills. Reasonable though close estimates were allowed to keep all departments up efficiently.

The retirement of Mr. J. G. Edwards, our city clerk, on March 31, after so many years service with the city, necessitated a rearrangement of the staff, and Mr. J. W. Wright was promoted to the position and has given quite satisfactory service. Mr. Ian Garven was appointed Tax Collector and Assessor, and is a young man found willing and able. The numerical strength of the staff was not increased, although many phases of tax collection, formerly done by our Municipal Police, had to be undertaken directly from this office. Mr. J. G. Edwards carries with him into retirement the best wishes of all those who have been officially connected with him, and of the citizens at large, that he may be spared many years to enjoy life.

Audit

Mr. Leighton E. Tripp, S.F.A.E., was again appointed auditor. During the year Mr. Tripp has made a continuous audit of the city's books. A complete statement is attached hereto.

Government Grants and Social Service

Government grants in 1936 were confined to a small amount from the Motor Vehicle Act. In 1936 this was further reduced. The Social Service Bureau has become heavier. A special session of the Provincial Legislature last Fall was called for the purpose of removing unjust burdens from municipalities and in a measure this is to take place, but it is hard to understand why that special session was held in October and no relief is to be given to municipalities till April. It means no reduction in these expenses will take place for the first quarter of 1937.

The employer and employee has also to shoulder a further contribution to the Provincial Government, under the Health Insurance Act, and the insured in return will get a very inadequate protection, if the present proposals stand.

Electric Light

Chairman Ald. Berry. This department has had an active year. Endeavors have been made to improve street lighting in both residential and business sections. The Christmas decorations this year created favorable comment, and we were broadcast over the Province News as having the finest public Christmas tree in the province.

Waterworks

Under the chairmanship of Ald. Wilde this department did well during 1936. The necessity of completing the new reservoir in 1937 is realized. The outlay may be considerable, but the protection and economy accruing will well repay the city.

Fire Department

Chairman Ald. Berry. This department is one of whose record for the past year, we may be proud. Fire loss was practically negligible. The siren which was installed may need some adjustment, as it is reported to be not entirely satisfactory. Successful St. John Ambulance classes were held under the auspices of this department. I commend the Chief and members of the Vernon Volunteer Fire Department for the interest they take in the work.

Board of Work

Chairman Ald. Howie. Much good endeavor has gone into the maintenance of our streets. More permanent work has been done on corners which were always breaking away. Watchfulness has been exercised in keeping down dust, our streets free from snow, and our sidewalks safe. Our own spraying equipment, for road oiling, was found—an economy again this year. The curbing around boulevards, and the laying of permanent sidewalks was continued.

Parks and Boulevards

Poison and Jubilee Park and Long Lake Beach.

Chairman Ald. Hunt. Repairs necessary to up-keep were put on, and the general well kept appearance maintained. The progress made in keeping down dust, our streets free from snow, and our sidewalks safe. Our own spraying equipment, for road oiling, was found—an economy again this year. The curbing around boulevards, and the laying of permanent sidewalks was continued.

Cenotaph and Cemetery

Chairman Ald. Howie, who exercised care in their upkeep. The dust layer on the road from the city to the cemetery was much appreciated by citizens.

Board of Health

Chairman Ald. Townrow. The sewer disposal works has maintained its efficiency throughout the year. Many sewer connections have been made, with the co-operation of property owners. Work will shortly be undertaken to manufacture sewer pipe for replacement, and new work and future councils will have to decide when a new unit at the disposal works will be a necessity, for as we progress in building this department has an increased load. The city's health has been excellent. The scavenger department has done its work well, but it would be much more satisfactory if standardized containers were used in the business section. Our streets, lanes, and vacant lots have been clean and tidy in appearance.

Our Industries

J. G. Edwards and myself, as representatives of the city on the Board of Directors of Bulmans Ltd., have attended many meetings. Chiefly due to the wholehearted co-operation of the directors and management I am able to report for this firm a successful season. All sinking funds and interest in connection with the \$25,000 debenture issue backed by our city, are in good order. In 1936 Bulmans Ltd., paid out to growers \$57,430, and in wages \$75,833 which, with the payroll of the Vernon Box Co. sawmill of \$60,000 wages and \$15,000 paid out locally for logs, with \$10,000 to local mills for lumber and

Breaks Flight Record

Maryse Bastie, French aviatrice, who landed her aeroplane at Natal, Brazil, 12 hours after taking off from Dakar, Senegal, breaking Jean Batten's record of 13 hours and 15 minutes.

\$15,000 wages in our own logging camps, are a great help and benefit to this community.

Our local co-operative creamery still maintains its outstanding record as a paying concern and winner of championships for the excellence of its product. In 1936 between 850,000 and 900,000 lbs. of butter were made, and approximately a quarter of a million dollars paid out to butter fat producers. The backing given to each other by the merchant and dairymen is very gratifying.

The year 1936 saw exceptional activity in the building line, yet the activity of 1936 has been a third more, over \$150,000 in building permits being taken out, a genuine investment in our city, increasing our assessment roll. I look forward with confidence that 1937 will be even greater.

A most successful convention of the U. B. C. M. was held in our city in September last, successful from the point of business accomplished, and for the invaluable publicity given for arrangements made for the comfort and entertainment of the 116 delegates and more than 40 visitors who attended.

Airport

Chairman Ald. Wilde. Again the expense of upkeep has been practically nil. Its active use is encouraging. On good authority we may look to greatly increased activity in 1937.

Police

R. N. Clerke, for 25 years Chief Constable of the City of Vernon, went into retirement June 30th, carrying with him the best wishes of all good citizens. The change over to Provincial Police has been in effect for six months. Owing to the City being under Provincial Police, there is now no election for Police Commissioners, all business being done by the City Council through the Mayor. I tender my thanks to the Police Commissioners who worked with me while we were under our own Municipal police.

Okanagan Union Library

By the passing of the plebiscite a year ago, the city, with the rest of the Okanagan, became committed to the scheme for three years. That there had been a certain amount of misleading propaganda during the demonstration was soon apparent. I understand there has been some criticism of my self about this unsatisfactory business. I must therefore say that I was not on the Citizens' Committee during demonstration and only took on the representation for Vernon at the request of the old committee and the Council.

I found we were left with a scheme barely able to budget for maintenance, with absolutely no money for capital expenditures, so necessary for the accomplishment of the very foundation the scheme existed for. The Valley Board of Management asked me to take the chairmanship of the Finance Committee, and realizing we were committed over a period of years, I took every available measure to make the scheme workable. Money was found for buying a necessary truck and setting up branch libraries and substations throughout the system. All places are now receiving some service and the great question now is books. Let me say the prospects for more satisfactory service in 1937 are very much brighter, and it is more than probable that after 1938, when this scheme again become a matter for the ratepayers endorsement, it will receive favorable treatment.

Relief

Ald. Townrow as chairman has associated with him all the Aldermen as a committee. The arduous task of handling relief has therefore been by all the Aldermen. Relief disbursements alone amount to a huge sum.

1937 will be Coronation year, and our city will have to prepare for a suitable celebration.

As the Governor-General could not include this part of the Interior in his itinerary in 1936, we shall probably receive his official visit in 1937.

I feel that I express the thought of every citizen in regarding the retirement of Ald. Townrow, who has served the city well in that capacity for some 8 years. He carries with him our thanks and best wishes.

I wish to add the appreciation felt both by myself and the other members of the Council, for the efficient manner in which the business of the City,

PLANS COMPLETED FOR THE ANNUAL JOBBERS' SESSION

Big Rally At Montreal To Be Held Jan. 21-23—Many To Attend

F. E. Holloway, chairman of the Canadian Fruit and Vegetable Jobbers' Association convention committee, reports that plans are now complete for the big convention to be held in Montreal on January 21, 22 and 23.

Acceptances have been received of the invitations issued to Hon. Maurice Duplessis, Premier of the Province of Quebec, Hon. Alphonse Raymond, chairman of the Legislative Council, Province of Quebec, Hon. J. G. Gardiner, Minister, Dominion Department of Agriculture, and His Worship the Mayor of Montreal. They will all attend, address and participate in the convention discussions.

Much attention will be devoted by the convention to the procedure under the United States Perishable Agricultural Commodities Act and the similar licensing provisions of the Canadian Fruit Act. The Canadian trade is unanimous in its insistence that the Canadian licensing provisions be rigidly enforced and that reciprocal arrangements be made between the United States and Canadian Departments of Agriculture so that complaints may be quickly adjusted.

Col. R. L. Wheeler, Dominion Fruit Commissioner, and F. G. Robb, associate in charge, Fruit and Vegetable Division, Department of Agriculture, Washington, will attend the convention to discuss the situation and matters pertaining to inspection, grades, etc.

A period during the convention has been set aside for a meeting of brokers only. The growing tendency of direct sales by United States shippers and brokers to Canadian jobbers with a brokerage allowance; unqualified brokers holding licenses, sales of one car to four or more receivers, and other matters will be thoroughly discussed.

Advance registrations are extraordinarily large this year particularly from United States shippers who apparently realize the extent of the Canadian market for their products and desire to meet and make Canadian contacts. J. Arthur McBride, Mack Fruits Inc., Montreal, urges those who have not already done so to advise him immediately of their requirements.

GOVERNMENT SHED AT ENDERBY RAZED

Building And Equipment—Are Destroyed By Fire With \$2,000 Loss

ENDERBY, B.C., Jan. 11.—The government building and much of the road machinery, including two caterpillars, a truck, and other equipment, was burned about noon on Saturday. It is thought that some of the machinery can be repaired, but the building is destroyed and only the galvanized iron walls are left.

It is understood the loss will be \$2,000 or over. It is not known how the fire started as every precaution has always been taken to prevent such a happening. Foreman G. Jamio looked over the stove and saw that everything was all right half an hour before the fire started. It is thought by many that the blaze was caused by a short circuit.

C. N. REVENUES UP

VANCOUVER, B.C., Jan. 12.—The gross revenues of the all-inclusive Canadian National railways system for the week ending January 7, 1937, were \$2,915,481, as compared with \$2,584,318 for the corresponding period of 1936, an increase of \$331,163.

the work of the several departments has been carried out by the city officials, which I feel sure must have met with the approval of the citizens generally. The work of the City Council in an effort to successfully conduct the city's affairs on your behalf is difficult and arduous. We, the electorate, should place in officials men of proven ability, who keep abreast of the vital fast-moving problems which threaten the very foundations of our Municipal economic existence today.

SAFETY DIVERSIFICATION MARKETABILITY YIELD

SOLID RESERVE

By selecting a house competent to give the best advice and counsel, by pursuing a sound investment policy, by investing systematically and regularly and by purchasing bonds to fit one's individual needs, one can build up a solid reserve in good securities to provide against the non-productive years of later life.

You are invited to discuss your investment account with us.

Synopsis of Land Act

FREE-EMPTIONS

VACANT, unreserved, surveyed Crown lands over 10 years of age, and by British subjects, conditional upon residence, occupation and improvement.

Full information concerning Free-emptions is given in Bulletin No. 1, Land Series, "How to Obtain Free of Charge by the Department of Lands, Victoria, B.C.; Bureau of Provincial Information, Victoria, or any Government Agent.

Records may be granted covering only land suitable for agricultural purposes within reasonable distance of road, school and marketing facilities and 5,000 board feet per acre east of the Coast Range and 5,000 feet per acre west of that range.

Applications for free-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land is situated, or the Commissioner, forms obtained from the Commissioner.

Free-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

Free-emptions carrying part time conditions of occupation are also granted.

PURCHASE OR LEASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes. Minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

As a partial relief measure, reverted lands may be acquired by purchase in ten equal instalments, the first payment suspended for two years, provided taxes are paid when due and improvements are made to value of 10% of the appraised value.

Mills, factory or industrial sites on Crown land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stampage.

Unsurveyed Crown lands not exceeding 60 acres, may be leased as residential upon a dwelling being erected in the area, and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

Under the Grazing Act the Province is divided into grazing districts and the range administered under grazing regulations. Grazing permits are issued based on certain monthly rates per head of stock. Priority in grazing privileges is given to resident stock owners. Stock-owners may form associations for range management. Free or partially free permits available for settlers, campers and travellers, up to ten head.

Armstrong Civic Affairs Are In Most Satisfactory Condition, Meeting Hears

Over \$2,000 Spent For Labor
Alone In Repairing
Water Mains

ARMSTRONG, B.C., Jan. 12.—The annual meeting of the ratepayers of Armstrong was held in the City Hall on Friday evening of last week, there being but a fair attendance. Mayor J. Z. Parks was voted to the chair, and reports were presented by the various committees of council, and also by the hospital board and the library board.

Alderman Calvert reported for the board of works in the absence of the chairman, Alderman Cooke. Tribute was paid to the work done by Alderman Cooke in the improvement he had effected in the streets of the city, and to the efforts he had used towards securing the hard surfacing of the provincial highway to the south of the city.

Water Mains Reviewed
Alderman Kevel presented a very satisfactory report for the water works department. The chief work accomplished during the year by this department was the renewing of water mains from a point well within the city limits back to within 2,800 feet of the reservoir. He congratulated the foreman and the workmen on the quality of the work done, and stated that the newly laid main had made possible a pressure of "upward of 125 pounds, and that even should a break occur in the line between the new main and the reservoir, the new pipe would provide a head of water that would assure a pressure of from sixty to eighty pounds.

In connection with this work some \$2,000 had been spent on wages alone, the distribution of which had been most beneficial to the labor situation in the district.

In reporting for the department of Health and Relief, Alderman Holliday submitted a written report from the medical health officer, Dr. J. A. Shotton, in which it was stated that the dairies which supply milk to the city had been regularly inspected, and that they conformed very satisfactorily to all requirements as to cleanliness and sanitation. He had also visited periodically the kitchens and dining rooms of the hotels and the restaurant which he also found conducted in a very satisfactory manner.

Dr. Shotton stressed the necessity for co-operation on the part of all citizens in the work of maintaining a high standard of health in the city and district, particularly in the matter of the prompt reporting of any symptoms that might indicate the presence of communicable diseases.

The work of relief has been well administered throughout the past year, Alderman Holliday commended very highly the work done by Constable Elliott in this connection, in investigating reported cases and assisting with the general administration of the department.

Criticism of Library
The Union Library has come in for a great deal of discussion since its organization last spring. Not a little criticism being heaped as to the service rendered by the new scheme.

During the last year of the former Armstrong-Spallumcheen Library Association it catered to a membership of 198; the membership of the new organization covering the same district, has grown in eight months to 773, almost four times that of the old library association.

Books and periodicals circulated during the eight months included in the report numbered 14,120. A feature worthy of note is that, of this circulation, 1089, or about nine per cent, was in the department of juvenile reading.

Alderman Adair reported for the Hospital Board that the present administration was working very satisfactorily. He paid high tribute to the Women's Auxiliary of the hospital for their work in the maintenance of supplies, thus relieving the board of considerable responsibility. It was also brought to the attention of the board that the Women's Institute of the city and district had, during the past year, presented to the hospital board equipment to the value of \$180. The hospital insurance scheme had provided revenue during the first eleven months of the year amounting to \$1,472.

Mayor's Report
Mayor Surgen gave a financial and general report of the work of the council for the past year. Having served as alderman for a number of years before assuming the duties of mayor one year ago, His Worship referred to 1936 as one of the most enjoyable years he had spent in civic business. Not only had there been internal harmony at the meetings of the council, but the relations of the City Council to all bodies with which it had business had been most cordial.

The higher percentage of taxes, both current and arrears, collected during the year had been an indication of the general trend of the times. It was the policy of the Council to have as much city prop-

erty as possible restored to the tax roll.

It was mentioned as a matter of satisfaction that, beginning with March, 1937, the provincial government will relieve the city of considerable responsibility in connection with certain features of welfare work.

Constable Elliott was called upon, and gave a review of the police department for the past year, showing a very favorable record as compared with former years.

School's Report
In the absence from the city of Chairman Wilson, of the School Board, Secretary Wigglesworth presented the annual report of the board. He commented on the fact that this was the first meeting of this nature for the past 15 years at which Mr. Wilson had not been present. For five years he had served as police commissioner, and as a school trustee for the past eleven years.

At the close of the meeting a vote of thanks was passed to the Council and the School Board for the manner in which they had carried out their duties during the year.

GARY COOPER HAS LEAD IN DRAMA OF WAR-TORN CHINA

Gary Cooper, the screen's most famous soldier-of-fortune, will be seen again in his favorite role when "The General Died at Dawn," a Paramount picture of adventure, romance and intrigue in modern war-torn China, comes on Wednesday and Thursday, January 20 and 21 to the Empress Theatre.

Having already established himself as filmdom's outstanding portrayal of romantic adventure roles in the French Foreign Legion, the Bengal Lancers and the Italian and American armies, Cooper now comes to the screen as a roving soldier-of-fortune in modern war-torn China.

Appearing opposite him is beautiful blonde Madeleine Carroll in the role of the lure put out by a scheming war-lord to trap Cooper. Akim Tamiroff, famed for his portrayals of sinister roles, is cast in the role of the ruthless warlord.

"The General Died at Dawn" is a story built around the romance between a soldier-of-fortune to whom danger is the breath of life, and a beautiful woman adventurer who is given the task of destroying him. Their fortunes are closely involved with the fate of China's teeming millions and their lot is decided for them as it only could be in the mysterious Orient.

SET DATES FOR GYRO CONVENTION IN KELOWNA

KELOWNA, B.C., Jan. 6.—July 22, 23, and 24, have been set as the dates for the annual District No. 4 Gyro convention here. Gyros are expected from Penticton, Kamloops, Vancouver, Victoria, Seattle, and other points in British Columbia and Washington.

CHANGES MADE IN McINTOSH GRADES MOST BENEFICIAL

"Thousands Of Dollars More
Have Accrued To Growers,"
States E. J. Chambers

KELOWNA, B.C., Jan. 12.—The change in McIntosh grades, established during the past season, by which color requirements were amended, and lower grades prevented from entering the United Kingdom, has had a most beneficial result.

This was the report made by E. J. Chambers, one of the members of the Grades Committee, when this committee's report was presented before the annual convention of the B.C.F.G.A. here on Tuesday morning.

There has been a particularly good result in the export field, Mr. Chambers pointed out. He admitted that the fact that color had been particularly high this past season helped the situation. But Macs are now ahead of Jonathans on certain markets in England. A premium is being obtained on the quite large percentage of extra fancy.

"Thousands of dollars have accrued to the growers as a result of the new gradings," he declared, "and I think we can say that Macs are now definitely and favorably established on the export market."

MAYOR O. L. JONES OPENS GATHERING

Problem Of Agricultural Laborer
Placed Before B.C.F.G.A.

By Fine Address

KELOWNA, B.C., Jan. 12.—The problem of the agricultural laborer was introduced by Mayor O. L. Jones, of Kelowna, when he welcomed delegates to the 48th annual convention of the B.C.F.G.A. as the sessions opened Tuesday morning.

"It is a problem that has always been side-tracked," he asserted, "but it is none the less one that demands earnest attention."

His Worship declared that "farming is too high a calling to contribute to a disgraceful condition whereby men are asked to work for as little as 7 cents an hour."

Agricultural laborers, he added, are quite ready to leave such under-paid jobs to secure relief work at the much more attractive figure of 40 cents per hour. This, he emphasized, is leading to a most unhealthy condition.

Mayor Jones asked the delegates, through the machinery of their association, to work towards the drafting of a uniform scale of wages, and his remarks seemed to be greeted with sincere and cordial interest by the convention.

"Most addresses of welcome are mere routine formalities," commented President A. K. Loyd, "but on this occasion we have been given serious food for thought."

LAVINGTON NOTES

LAVINGTON, B.C., Jan. 11.—Mr. and Mrs. John Roberts and two children, of Vancouver, have returned to their homes after having spent an enjoyable Christmas holiday with Mr. and Mrs. Harold Roberts.

School reopened on Tuesday. Several children were not able to attend, on account of severe weather. The boys are getting the school rink into good shape and already hockey has commenced.

A meeting of the Lavington and District Property Owners Association was well attended at the school on Monday afternoon last.

Mr. and Mrs. Roy Kirk were recent visitors to Kamloops, attending the silver wedding anniversary of the former's sister and brother-in-law, Mr. and Mrs. Sam Goss.

RUTLAND LOCAL ATTENDANCE POOR

Kelowna Dramatic Society Pre-
sented "Safety First" Under
A.O.T.S. Auspices

RUTLAND, B.C., Jan. 10.—The severity of the weather resulted in a very meagre attendance at the monthly meeting of the Rutland Local of the B.C.F.G.A. in the community hall on Wednesday evening last, January 6, only nine growers turning out.

Resolutions for consideration at the forthcoming convention were discussed, but the meeting was not representative enough to express opinions for or against questions under discussion. A. K. Loyd, President of the B.C.F.G.A., was present and explained phases of various questions raised by the resolutions from other locals. The Rutland delegates to the convention, A. L. Babbick and E. Wrightman, President and Secretary respectively of the local, were able to ascertain the attitude of the audience, but the zero temperature prevented an attendance such as the high quality of the entertainment deserved, and the Club will not realize as much financially from the affair as had been hoped.

The Young Adonians baseball team staged an enjoyable invitation dance in Gray's packing house on Wednesday evening of last week, the Stola brothers supplying the music.

Holy Communion will be celebrated at St. Adian's Anglican Church on Sunday next at 9.45 a.m.

HANDICRAFTS ARE BEING REVIVED IN NORTHERN EUROPE

"Arts And Crafts In Northern
Europe" Proves A Most
Interesting Topic

Though modern Scandinavian painting has only comparatively recently come into prominence, other arts in Northern Europe, such as wood carving, metal work, and weaving, have come down through the centuries and today there is a distinct revival in these handicrafts, it was indicated by Professor Paul Boving, in addressing an audience in the Burns' Hall on Monday evening.

Professor Boving's address, the second in the University of British Columbia extension series to be heard here, was under the auspices of the local Alumni Association. Owing to the unavoidable absence of the Association's President, Fergus Muir, and Vice-President, G. J. Rowland, J. B. Beddome, of the Vernon High School, occupied the chair.

Keen Interpreter
Taking as his topic, "Arts and Crafts of Northern Europe," Professor Boving, of the department of agronomy at the University, showed himself to be a keen student and interpreter of cultural aspects of life in Norway, Sweden and Denmark, in particular.

His subject was divided into three parts, dealing in turn with handicrafts, painting, and sculpture, and he possessed to a more than ordinary degree a capacity for imparting his enthusiasm to his audience. He is himself of Scandinavian birth.

He displayed samples of clothing, rugs, metalwork, and woodwork from his private collection, and some of the pieces were up to 300 years old.

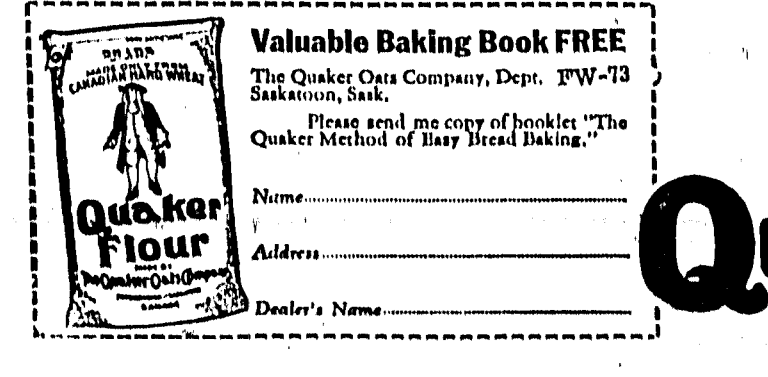

Revival In Arts
The art of metal and woodwork has come down through the ages from Viking times, he said, but towards the end of the last century there was a definite decline. Now, however, a revival in handicrafts has sprung up and in all sections of the country club have been formed.

Clothing is made from flax grown on the farms and from processes are by hand. The Dames are outstanding in metal work in the Swedes and Norwegians in weaving. Although materials used in weaving are coarse and the patterns simple, the colors, from vegetable dye, retain their brilliance indefinitely.

Prominent Artists
Unlike handicrafts, painting in Northern Europe is of recent origin. Early Scandinavian artists showed a tendency to copy the work of Italian, French and English masters. Modern painters have, however, come to be recognized widely throughout Europe and some to a large extent in America.

Professor Boving showed a number of prints from pictures by modern Scandinavian painters, explaining some of their history and their interest in different aspects of the country, its people and scenery.

"Mother—don't
tell me you still set
your dough overnight!"

"WHY I HAVEN'T SET A SPONGE
FOR YEARS—YOU DON'T HAVE TO
WITH THE QUAKER METHOD
OF EASY BAKING . . .
NO KNEADING EITHER."

"THERE! ISN'T THAT LOVELY
BREAD? AND IT WILL TASTE
JUST AS DELICIOUS AS IT
LOOKS TOO, MADE FROM
QUAKER FLOUR."

Use Quaker Flour . . . the easy way to Better Baking

● With the Quaker Method of Easy Baking you can bake bread and rolls in half the time . . . with half the effort. No sponge to set overnight . . . no kneading . . . no waste. And you can be sure of better results always.
